

SAY NO TO UNDERSIZED FISH

TO HELP FIJI'S FISHING GROUNDS THRIVE, WE NEED TO AVOID BUYING AND SELLING UNDERSIZED FISH. THIS POSTER CONTAINS THE SIZES OF THE MOST COMMON FOOD FISH. FISH UNDER THE MINIMUM SIZE LIMITS MAY BE CONFISCATED AND RESULT IN FINES. MAKE THE 4FJ FISH SMART PLEDGE AND HELP PROTECT OUR WAY OF LIFE.

Legal Size: The current Minimum Size Limits of fish. Fish under these sizes may be confiscated and result in fines. Age of Maturity: The number of years it takes each fish to reach maturity and start breeding. Set Size: Set Sizes are the most current research on Fiji's fish. Fiji's current sizes were set in 1942 based on limited available research. In many cases, the legal sizes are too small to sustain our fisheries. If you can, pledge to avoid any size under the Set Sizes.
