## 2006 Statistical Yearbook

Division of Research & Evaluation  
P.O. Box 7080  
Koror, Palau 96940

**Published April 2006**

## **Acknowledgements**

This publication was made possible through the support of many people within the education sector. A special acknowledgement goes to the school principals for actively participating in the Annual School Survey conducted, the Division of Personnel Management and Administrative Services Section for assistance in collection of other data within the ministry. Finally, the staffs of the Division of Research and Evaluation are commended for compilation of this publication.

## **Introduction**

The Education Statistical Yearbook 2006 is an annual publication of the Ministry of Education. It provides a range of statistical information about education in the Republic of Palau and serves as a reference for school officials and others responsible for planning and implementing activities concerning education and the development of our youth. The statistical information contained in this publication is comprised of data collected with the Annual School Survey conducted in [July 2006](#) and data from other sources within the Ministry of Education.

This publication's layout begins with a summary of all the schools in the Republic of Palau. The following shows how the publication is organized.

- ☛ School Information
- ☛ Students' Information
- ☛ Personnel Information
- ☛ Facilities & Equipments
- ☛ Finance

## Definition of Terms

Acronyms	Terms Definition
BMS	Belau Modekngai School
Dropout	This refers to any student who leaves school for a period of 15 consecutive school days without request of a transcript or withdrawal request from parents. Students who drop out of school do not return to school within the same school year that they left school.
MOE	Ministry of Education
PHS	Palau High School
PMA	Palau Mission Academy
Repeater	This refers to any student who repeats the same grade level more than one given school year.
ROP	Republic of Palau
SDA	Seventh Day Adventist
Transfer In	This refers to any student who enters another school within MOE's school system. Students could be coming in from another school within MOE's school system, outside of MOE's school system, or another island or country.
Transfer Out	This refers to any student who exits current school within MOE's school system within a given school year.
Withdrawal	This refers to any student whose parents and/or guardian presented the school with an official document requesting that their child be withdrawn from the school for any given school year.

2006 Annual School Survey (End of Year Data)

Table 2 shows a total enrollment of 2,890 students of public and private elementary schools. Of the total elementary enrollment, 79.2% are enrolled in public schools. Looking at enrollment by schools, Koror has the highest enrollment of 653 students, followed by George B. Harris at 554, and Maris Stella at 319. Schools with the lowest enrollment include Pulo Ana, Sonsorol with 6 students and JFK with 17.

2006 Annual School Survey

Table 3 shows a total enrollment of 1,218 for both public and private high schools by grade levels in school year 2004-2005. Of the total high school enrollment, 65.4% are enrolled in public schools. Looking at enrollment by schools, PHS has the highest enrollment of 797 students, followed by Mindszenty at 201. Schools with the lowest enrollment include BMS at 27 and Emmaus at 27.

Of the total enrollment of 4,108 students, public schools has higher enrollment of 75.1% compared to 24.9% for private schools. By school level enrollment, 70.4% were enrolled in the elementary schools while the remaining 29.6% were enrolled in the secondary schools.

Enrollment by grade level shows elementary schools enrollment range between 322 and 434 with grade 6 having the highest and grade 3 having the lowest. The enrollment in the high school level indicate a steady decrease as students progress through the grade levels beginning with grade 9 having the highest enrollment of 394 students and ending with grade 12 having the least enrollment of approximately 60% of grade 9 enrollment.

**Figure 2: Elementary Schools Enrollment Distribution (Public & Private)**

As shown in Figure 2, one in every three students is enrolled in the private elementary schools. A higher proportion of students are enrolled in public elementary schools due to enrollment in private schools being limited only to those who can afford tuition and other school fees.

**Figure 3: High Schools Enrollment Distribution (Public & Private)**

As shown in Figure 3, about two thirds of high school students are enrolled in public schools. Tuition and other school fees required in private schools limit enrollment to those who can afford such costs.

**Figure 4: Enrollment by Region (Public & Private)**

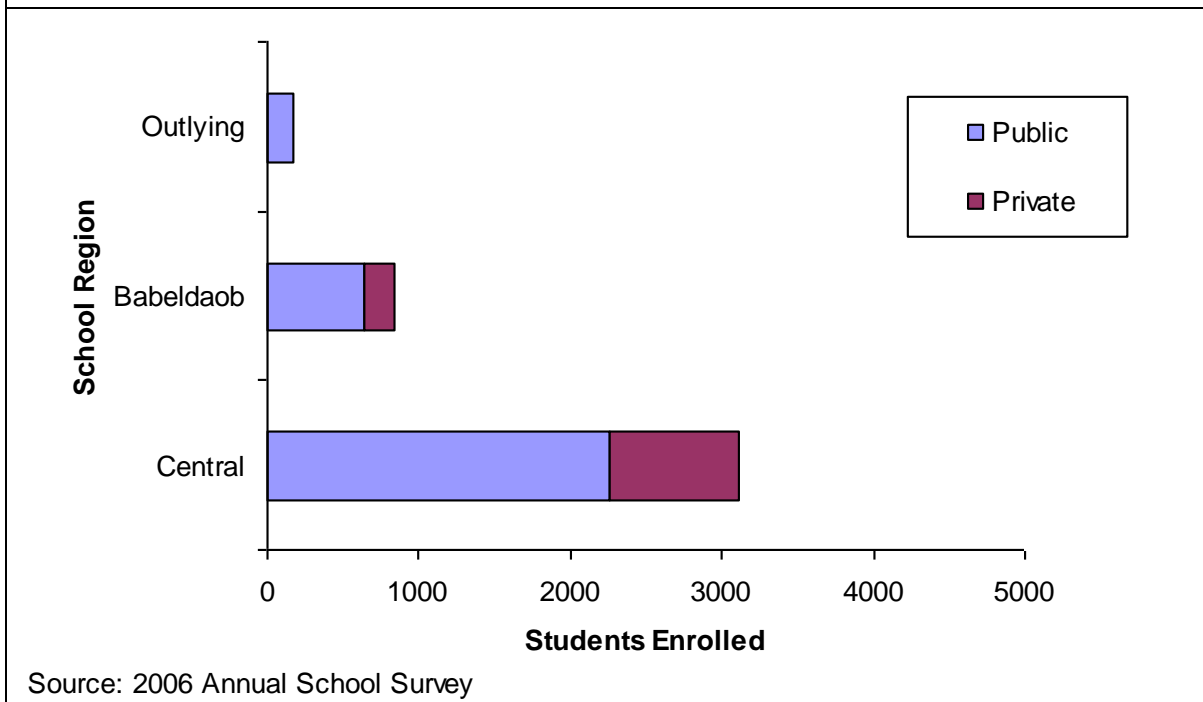

Figure 4 shows the distribution of student enrollment by region. Central region, being the most populated, has the largest number of students 3,097. Babeldaob region has 27.2% of students. Outlying states have the least number of students, all in public schools.

10	67	67	100
11	64	28	44
12	57	39	68

Source: 2006 School Survey

Note: The **M/F Ratio column**, states that for every 100 female there are  $x$  number of males in each given grade level.

In the public schools, as shown in table 7 above, the male/female ratio in the elementary level (grades 1-8) indicate more male than female students, with grade 1 having the highest ratio of 135 and grade 4 having the lowest of 104. At the high school level (grades 9-12), grades 9 and 10 shows more male students than female but as they progress to higher grades (11 and 12) female outnumber male students. Data may indicate that more male students in the public schools are leaving high school early. For the private high schools (grades 9-12), as shown in table 8, there are also more female than male students.

## Drop Out

**Table 9: Drop out and Percentage by Grade (Public & Private)**

Grade	Dropout					Percentage of Enrollment

Source: 2006 School Survey

Table 9 shows drop out students by grade level in both public and private schools. When comparing public and private schools, there is considerably more drop out students in public schools than private schools. As a percentage of the total student enrollment, drop out rate amounts to 2.8 percent for SY 04-05. By grade levels, the top 3 grades with highest drop out rates were grades 1, 2 and 9.

Source: 2006 Annual School Survey

As shown in Table 10, more males than females are dropping out of school. Incidences increase more in the high school when comparing elementary and high school levels. Of the 52 drop out students, 59.6% of them are high schools students while the remaining 40.4% are elementary schools students.

**\*Drop out** refers to all students who leave school for a period of 15 consecutive school days without request for a transcript or withdrawal request from parents.

## Withdrawal

As shown in Table 11, more students in public schools withdraw from school compared to private schools. As a percentage of the total student enrollment, student withdrawals amount to 1.5%. When comparing grade level withdrawal rates for private schools, grade 10 has the highest rate of 6.9%, followed by grade 1 with 4.7%. For public schools, grade 9 has the highest of 4.7% followed by grade 10 with 3.3%.

Source: 2006 Annual School Survey

**Withdrawal** refers to any student who leaves school and stays out of school for the rest of each given school year after a parent/guardian submit official withdrawal request.

As shown in Table 12, more males than females withdraw from school. When comparing grade levels, withdrawal occurs more in grades 1 and 6 for elementary and grades 9 and 10 for high school.

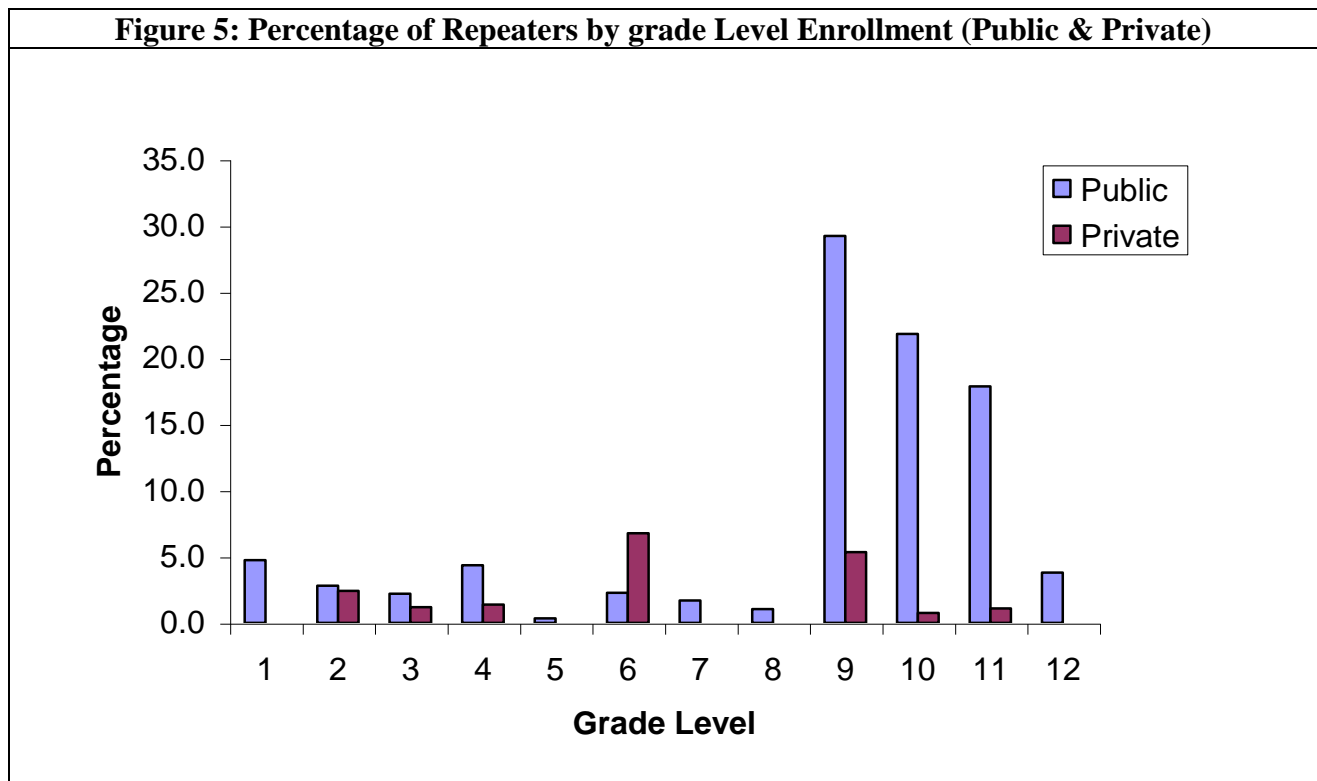

## Repeaters

**Table 13: Repeaters and Percentage by Grade (Public & Private)**

Grade	Repeaters					Enrollment

Total	3071	212	1054	19	231	6.9	1.8	5.6

Source: 2006 Annual School Survey

As indicated in Table 13, there are more students repeating grades in public schools than those in private schools. In the elementary, grade 1 had the highest number of repeaters, closely followed by grade 6. In the high school level, grade 9 has the highest number of repeaters, followed by grade 10. As a percentage of the total student enrollment, student repeaters amount to 4.4%.

Source: 2006 Annual School Survey

\* **Repeater** refers to any student who at the end of a given school year repeats the same grade level for the next school year.

**Table 14: Number of Repeaters by Grade and Gender (Public & Private)**

Grade	M	F	Total
1	7	4	11
2	8	1	9
3	5	2	7
4	9	3	12
5	0	1	1
6	10	2	12
7	5	1	6

9	50	34	84
10	27	17	44
11	22	14	36
12	5	1	6
Total	149	82	231

Source: 2006 Annual School Survey

Table 14 shows the number of repeaters by gender. Of the 207 repeaters, 59.4% of them were male and the remaining 40.6% were female.

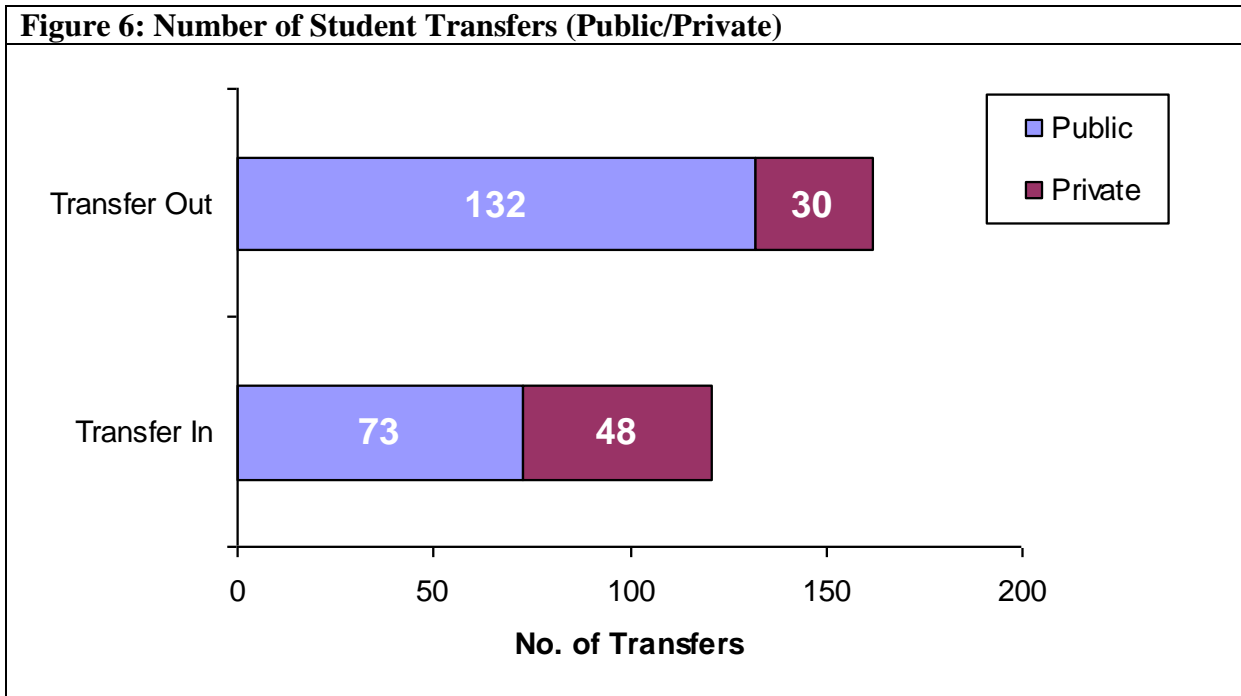

### Transfers

**Table 15: Student Transfers by Grade (Public & Private)**

Grade	Public		Private	
	In	Out	In	Out
1	2	6	3	5
2	15	19	2	3
3	5	12	2	4
4	8	17	5	2
5	4	14	0	4
6	9	16	3	0
7	18	18	2	0
8	12	6	4	2
9	0	11	2	3
10	0	4	1	2
11	0	8	24	5
12	0	1	0	0
Total	73	132	48	30

Source: 2006 Annual School Survey

As shown in Table 15, public schools experience more transfer student than private schools. It appears that students who transfer into schools are more than those who transfer out. This could mean additional students transferring into the school system from foreign schools. When comparing grade levels, the highest number of student transfer occurs in grade 9, followed by grade 1 and 3.

Source: 2006 Annual School Survey

The large difference between **Transfers In** and **Transfers Out** could be a result of students transferring in from outside of Palau’s school system.

### Graduate Trend

**Table 16: Graduate and Percentage Trend by School Level**

School Years	Elementary			High School		
	8th grades	Graduates	Percentage	12th Grades	Graduates	Percentage
1995-1996	263	256	97.3	112	104	92.9
1996-1997	232	232	100.0	90	82	91.1
1997-1998	258	263	101.9	118	103	87.3

Source: 2006 Annual School Survey

Table 20 shows teacher-student ratio. Overall, public schools have a slightly higher teacher student ratio of one teacher to every twelve students compared to private schools with teacher to eleven students. When comparing school levels, high school has a ratio of teacher to fourteen students in the public school and one teacher to nine students in the schools. In the elementary level, public schools have a ratio of one teacher to eleven while the ratio for private elementary schools is one teacher to fourteen students.
