# PNG Education at a Glance

**Issue 1.2014**

**Key Education Statistics for academic year 2013**

The Papua New Guinea Education at a glance leaflet aims to provide stakeholders with a brief insight into how the education system is performing. It provides Key Performance Indicators (KPI) and education statistics for 2013 schools in the Education System.

This leaflet briefly summarise data already in the 2013 Annual Report and the 2013 Annual Statistical Bulletin. These documents can be referenced and examined how the data is broken down by gender, province, and agency. The National Department of Education plan is to provide stakeholders to access more information at province and district levels using various tools, which you may find of use.

Further information can be requested through the email address below. Please detail your name, organisation and briefly explain why you need the data and how it is intended to be used.
