Balance of payments (BoP)

Data description

Title	Balance of payments (BoP)
Description	Balance of payments data from IMF's Balance of Payment analytical presentation per country for Pacific Island Countries and Territories.

Data identification

Identifier	SPC:DF_BOP(1.0)
URL	https://stats.pacificdata.org/vis?fs[0]=6nQpoAP%2C0%7CEconomy%23ECO%23&pg=0&fc=6nQpoAP&df[ds]=SPC2&df[id]=DF_BOP&df[ag]=SPC&df[vs]=1.0&pd=2015%2C&dq=A..AMTUSD.&lt[cl]=TIME_PERIOD&lt[rw]=ACCOUNT

Data source

IMF's Balance of Payment analytical presentation per country

Data processing

Annual and quarterly values collected in thousands of USD are published without further processing.
Amounts in local currency units are added to the dataset using period-average exchange rate collected from IMF (quarterly rates calculated from monthly rates).

Data scheduling

Frequency	Annual and quarterly data
Timeliness	

Additional comments on the dataset

Trade in goods in BOP will not be the same as trade in goods in IMTS due to methodological difference e.g. IMTS trade data generally record imports to a country in CIF values that include cost, insurance and freight; export values are shown in FoB terms (free on board). In balance of payments calculations both import and export values are shown in FoB terms with the insurance, freight and any other service charges included in the services accounts.
