

INTRODUCING THE PACIFIC GENDER MAINSTREAMING TRAINING KIT

An innovative new resource is now available to support training in gender mainstreaming in the Pacific.

DEVELOP INFORMATIVE AND ENGAGING TRAINING

The *Pacific Gender Mainstreaming Training Kit* collects together all the information you need to develop and deliver training programmes on gender equality, analysis and mainstreaming.

The package has been developed with the input of gender experts, and is informed by decades of practical experience in delivering gender mainstreaming training across the Pacific.

Applying the learnings and tools will help people to apply gender mainstreaming in their work, and support Pacific Island countries and territories to deliver gender responsive initiatives.

“All Pacific Island countries and territories have policies in place that endorse gender responsive approaches. Unfortunately, however, a lack of awareness or technical capacity can prevent gender mainstreaming practices from being applied. This training package will help to bridge the gap between intention and action. In doing so, it is well placed to make a real difference to the lives of women and girls across the Pacific.”

– Important person

EVERYTHING YOU NEED IN ONE PACKAGE

The training kit has 33 unique training sessions, divided across three different modules, plus an introductory module. Each of the sessions includes:

- clearly stated learning objectives
- tips for facilitators
- step-by-step instructions for activities and discussions
- customisable PowerPoint presentations
- evaluation questions
- printable handouts.

TAKE A LOOK INSIDE

All three training modules, along with downloadable presentations and a guide for facilitators, are available on the [Pacific Data Hub \(http://www.pacificdata.org/mainstreaming-gender-in-development-toolkit\)](http://www.pacificdata.org/mainstreaming-gender-in-development-toolkit).
