Sea cucumber retail market in Singapore

Chantal Conand1

The retail market for sea cucumbers is active in Singapore and many shops are selling diverse dried sea products (Fig. 1). The price for sandfish *Holothuria scabra* was around SGD 180 per kg in October 2000 [Note from editor 1SGD ≈ 0.58 USD]. In the main town market, there are many sellers of sea cucumbers already soaked. It is difficult to determine the species in that case. They sell for between SGD 14 and 18 per kg (Fig. 2) and an assortment of 6-7 pieces at SGD 2 (Fig. 3).
