

# American Samoa Results Summary 2018

Each year, as part of SPC's organisation-wide annual results reporting process, SPC collates the results achieved in each of its member countries and territories, and in the region. In 2018, 588 results were reported across the organisation towards the achievement of our objectives. Two multi-country results benefitted American Samoa.

\*Multi-country results including more than 10 Pacific Island countries and territories are included in the Regional Results Summary 2018

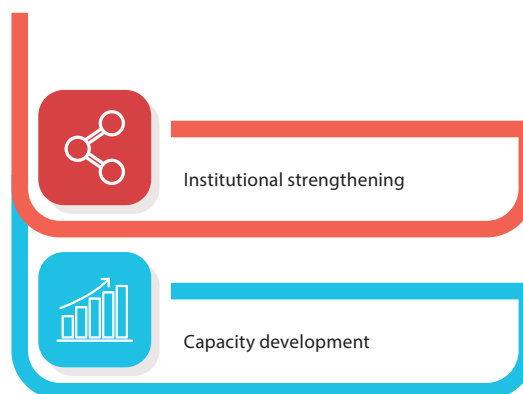

## Results by SPC's development objectives

## Ways of working

In 2018, we looked more closely at how SPC contributes to the achievement of results in its member countries and territories.

**SPC's staff supported American Samoa in achieving its results in two ways:**

## SPC's contribution to the achievement of the Sustainable Development Goals

In 2018, we mapped each result to the SDGs to show how SPC contributes to their achievement in each of our member countries and territories. In American Samoa, results contributed to 1 of the 17 SDGs. All results supported SDG 3: Good health and well-being.
