# *Carcharhinus falciformis*

FAL

English: Silky shark  
French: Requin soyeux  
Japanese: Kurotogarizame  
Hawaiian: Silk shark  
Local:

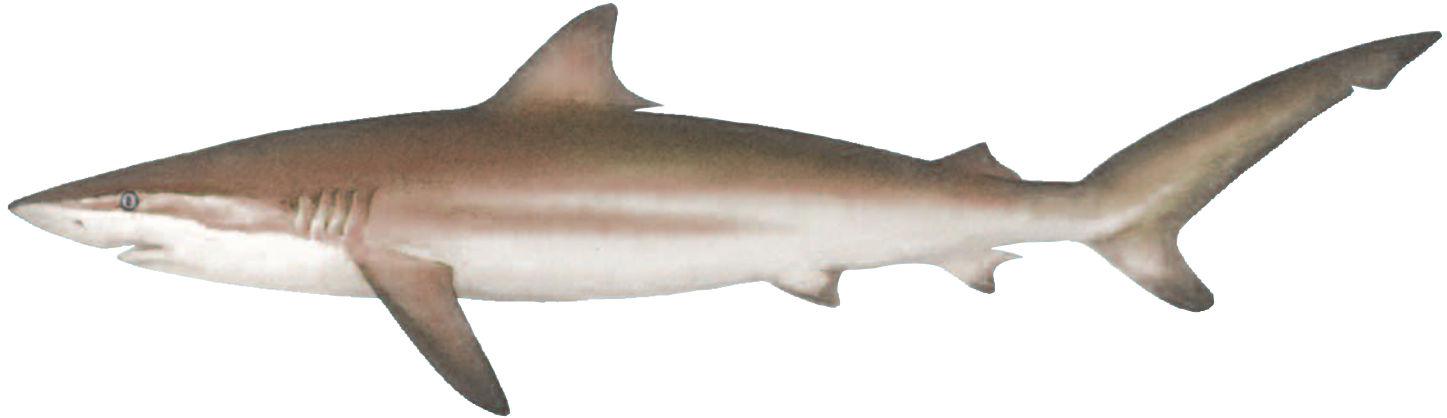

Shape of upper teeth  
Forme des dents supérieures

Front of first dorsal fin clearly behind pectoral fin  
Origine de la première nageoire dorsale nettement  
en arrière de la nageoire pectorale

# *Carcharhinus brachyurus*

BRO

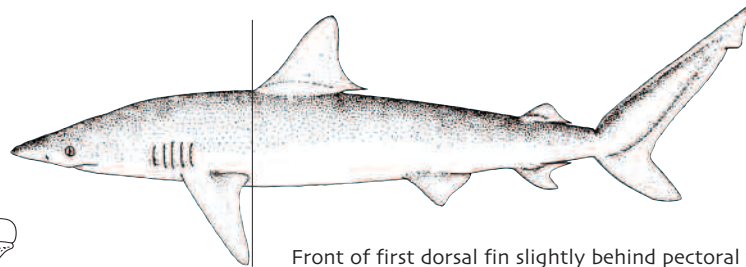

English: Copper shark,  
Bronze whaler

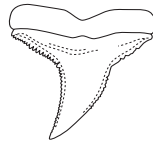

French: Requin cuivre

Japanese: Kuroherimejirozame

Local:

Front of first dorsal fin slightly behind pectoral fin  
Origine de la première nageoire dorsale légèrement  
en arrière de la nageoire pectorale

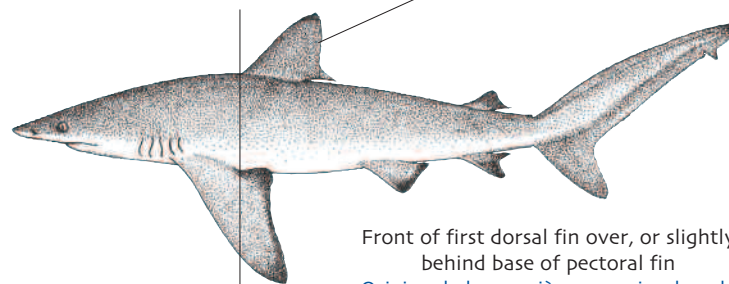

Shape of upper teeth  
Forme des dents supérieures

# *Carcharhinus altimus*

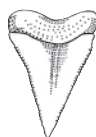

CCA

Tall first dorsal fin  
Première nageoire dorsale haute

Front of first dorsal fin over, or slightly behind base of pectoral fin  
Origine de la première nageoire dorsale à l'aplomb ou légèrement en arrière de la base de la nageoire pectorale

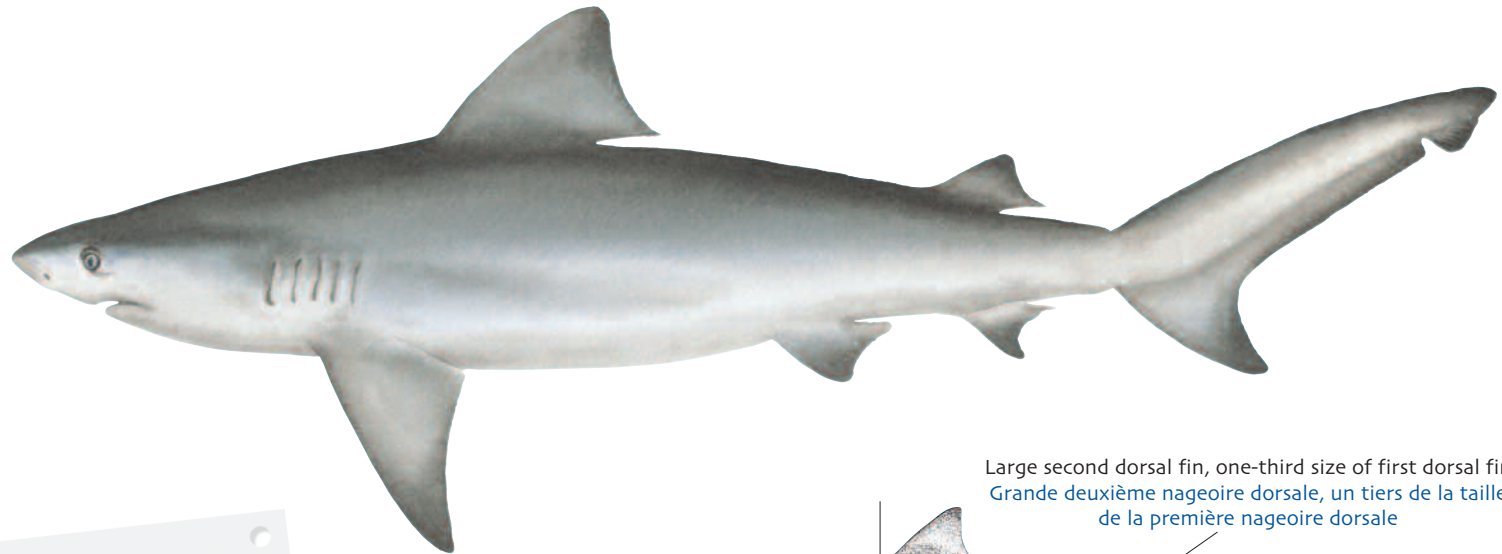

Shape of upper teeth  
Forme des dents supérieures

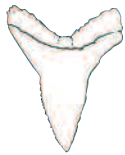

English: Bignose shark  
French: Requin babosse  
Japanese: Habire  
Local:

# Carcharhinus leucas

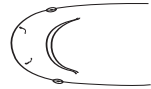

CCE

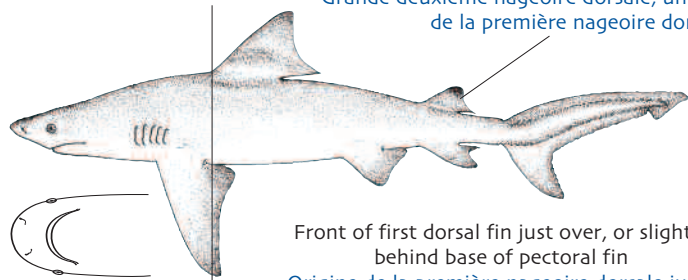

English: Bull shark  
French: Requin bouledogue  
Japanese: Oomejirozame  
Local:

Shape of upper teeth  
Forme des dents supérieures

Snout very broadly rounded and extremely short  
Museau très largement arrondi et extrêmement court

Front of first dorsal fin just over, or slightly behind base of pectoral fin  
Origine de la première nageoire dorsale juste à l'aplomb ou légèrement en arrière de la base de la nageoire pectorale

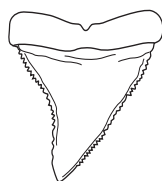

Large second dorsal fin, one-third size of first dorsal fin  
Grande deuxième nageoire dorsale, un tiers de la taille de la première nageoire dorsale

# *Carcharhinus galapagensis*

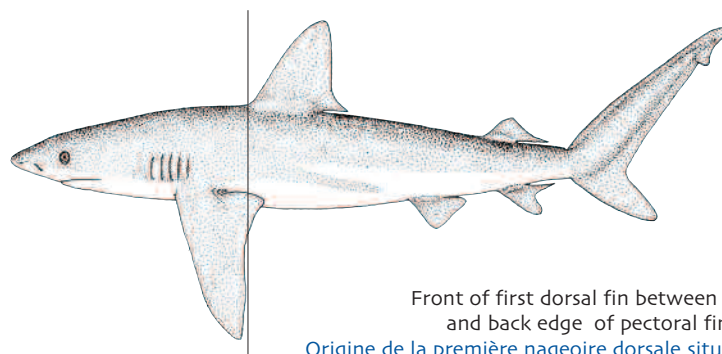

CCG

- English: Galapagos shark
- French: Requin des Galapagos
- Japanese: Garapagosuzame
- Hawaiian: Mano
- Local:

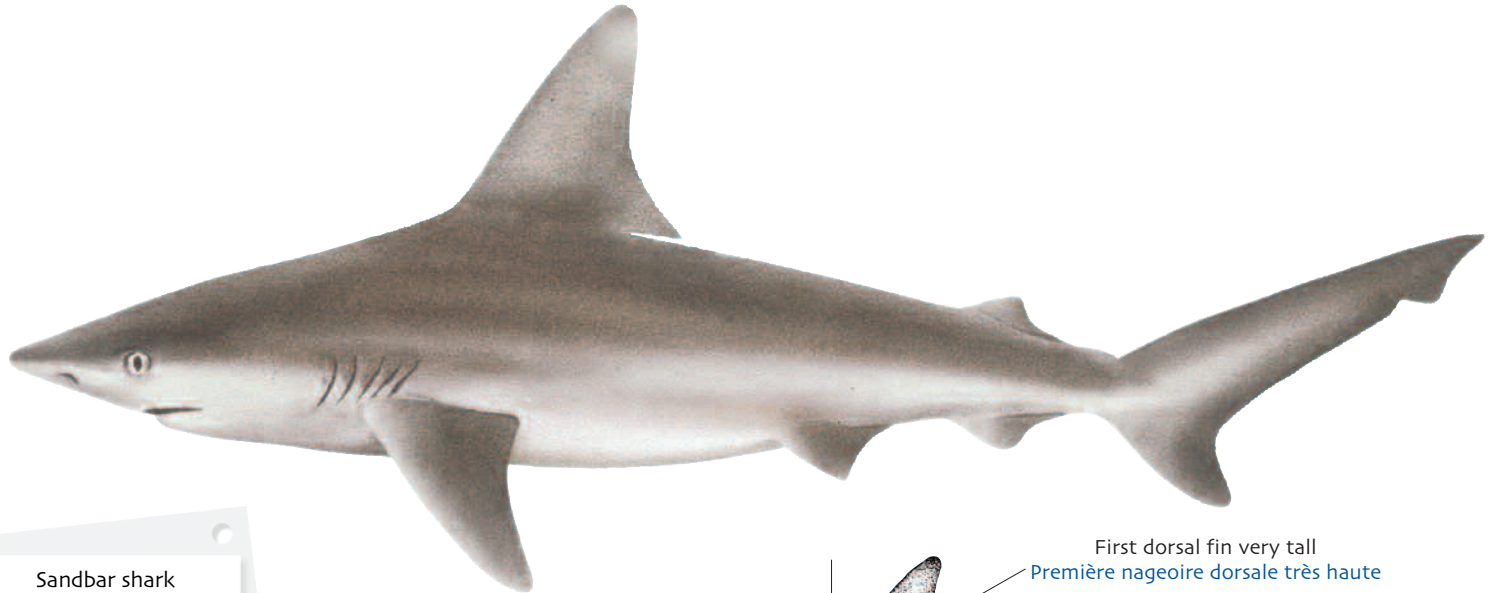

Shape of upper teeth  
Forme des dents supérieures

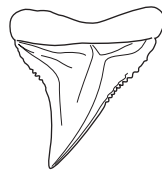

Front of first dorsal fin between base  
and back edge of pectoral fin  
Origine de la première nageoire dorsale située entre la base  
et le bord postérieur de la nageoire pectorale

# Carcharhinus plumbeus

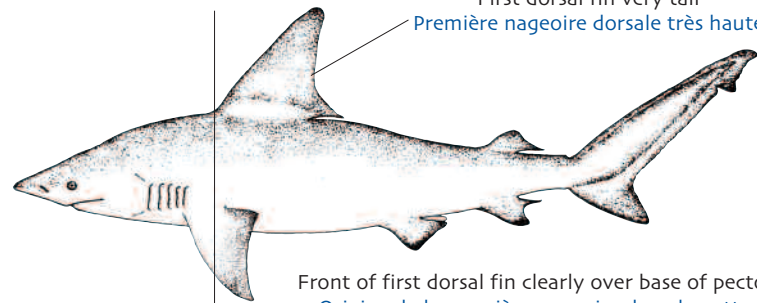

CCP

English: Sandbar shark  
French: Requin gris,  
Requin gris à  
haute dorsale  
Japanese: Mejirozame,  
Yajibuka  
Hawaiian: Mano  
Local:

Shape of upper teeth  
Forme des dents supérieures

First dorsal fin very tall  
Première nageoire dorsale très haute  
Front of first dorsal fin clearly over base of pectoral fin  
Origine de la première nageoire dorsale nettement  
à l'aplomb de la base de la nageoire pectorale

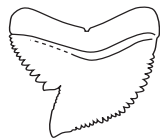

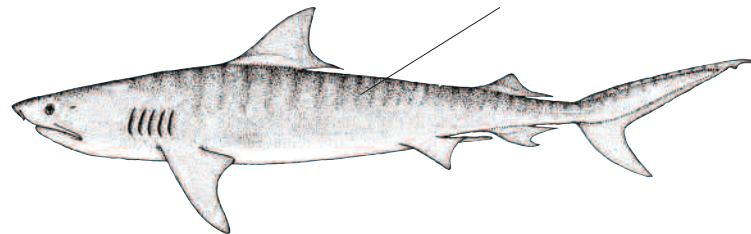

# Galeocerdo cuvier

TIG

Dark, tiger-stripe markings that may be faded in large adults  
Marques noires, tigrées, qui peuvent se décolorer  
chez les grands adultes

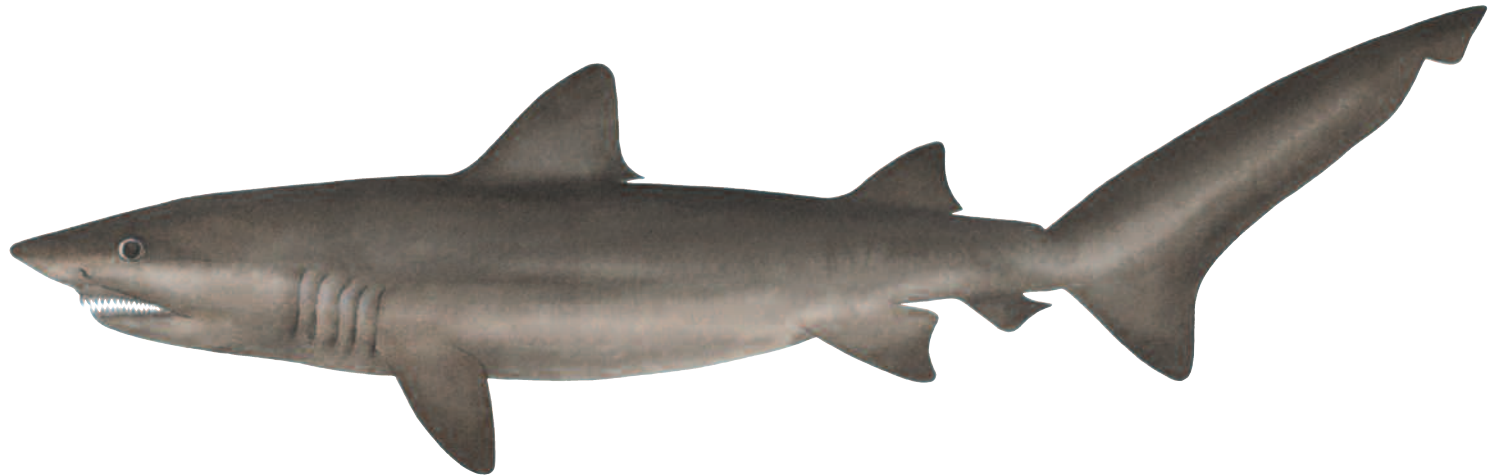

Shape of upper teeth  
Forme des dents supérieures

- English: Tiger shark
- French: Requin tigre
- Japanese: Itachizame,  
Tora zame
- Hawaiian: Niuhi,  
Manopá'ele
- Local:

# Odontaspis noronhai

ODH

English: Bigeye sand tiger shark

French: Requin noronhai

Japanese: Burajiruwanizame

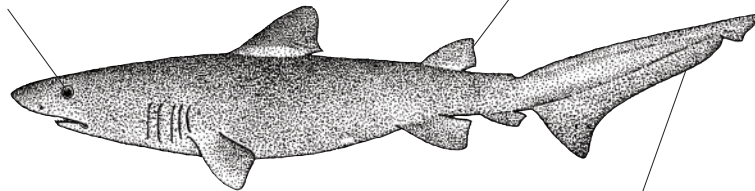

Local:

Large eyes  
Grands yeux

Shape of upper teeth  
Forme des dents supérieures

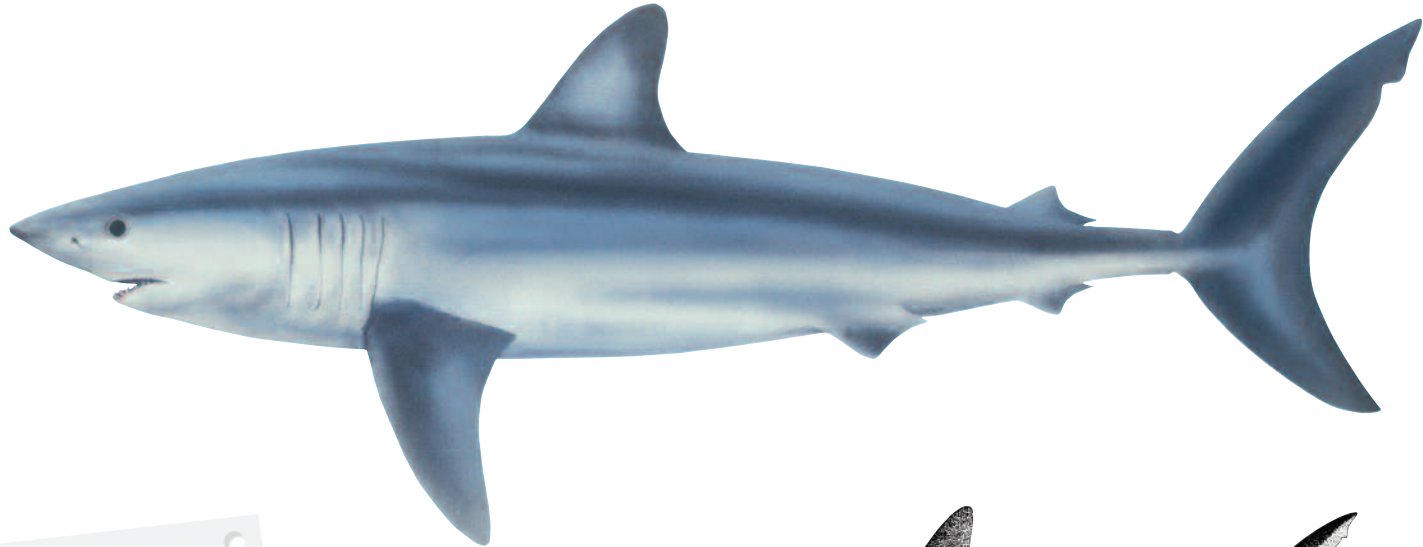

Second dorsal fin over pelvic fin  
Deuxième nageoire dorsale à l'aplomb  
de la nageoire pelvienne

Upper lobe of caudal fin much longer than lower lobe  
Lobe supérieur de la nageoire caudale beaucoup plus  
long que le lobe inférieur

# Isurus oxyrinchus

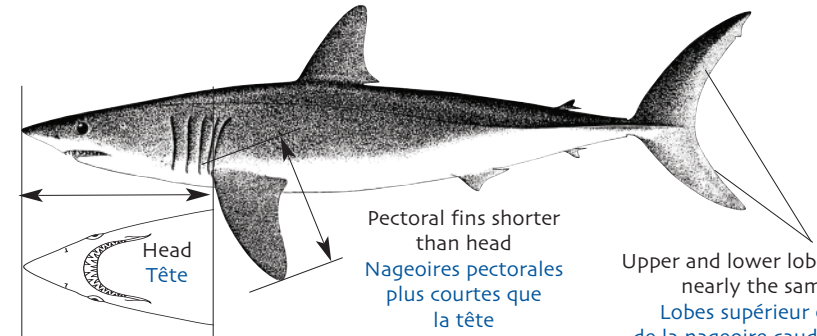

SMA

English: Shortfin mako  
French: Taupe bleue  
Japanese: Aozame  
Hawaiian: Mano  
Local:

Shape of upper teeth  
Forme des dents supérieures

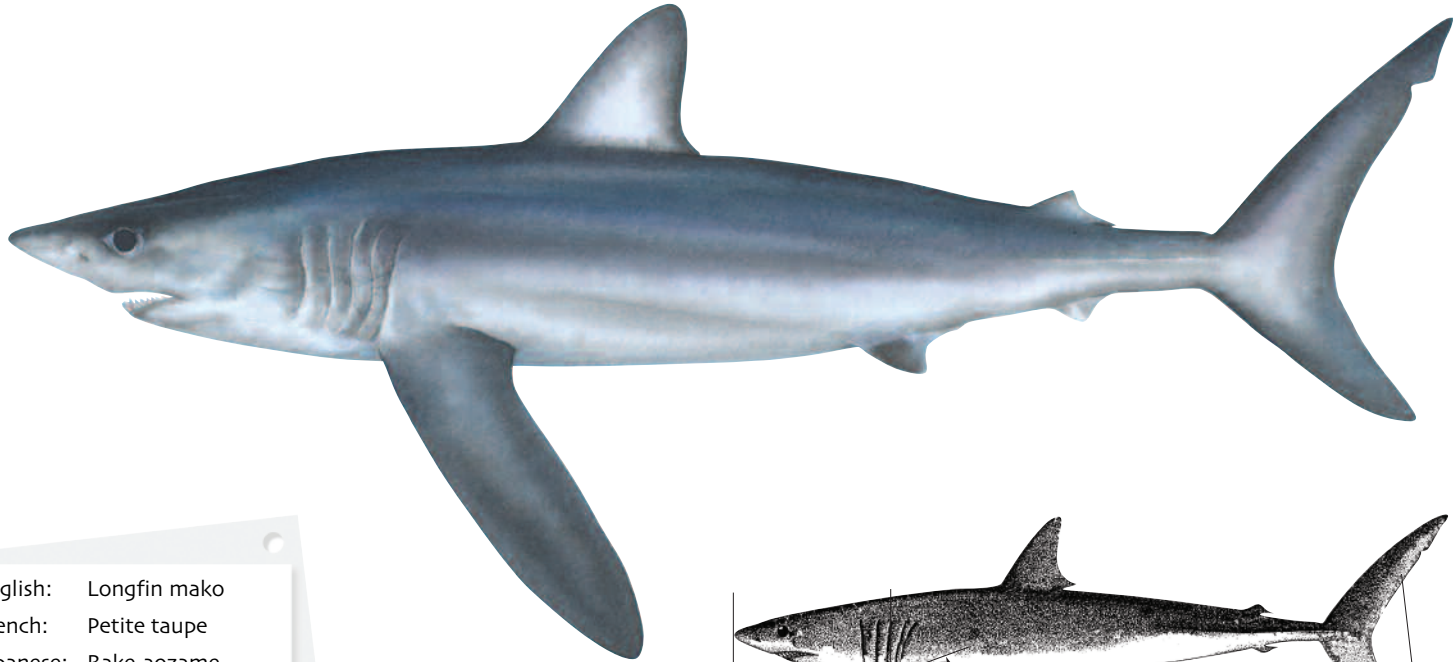

Head and snout pointed  
Tête et museau pointus

Pectoral fins shorter than head  
Nageoires pectorales plus courtes que la tête

Upper and lower lobes of caudal fin nearly the same length  
Lobes supérieur et inférieur de la nageoire caudale à peu près d'égale longueur

# Isurus paucus

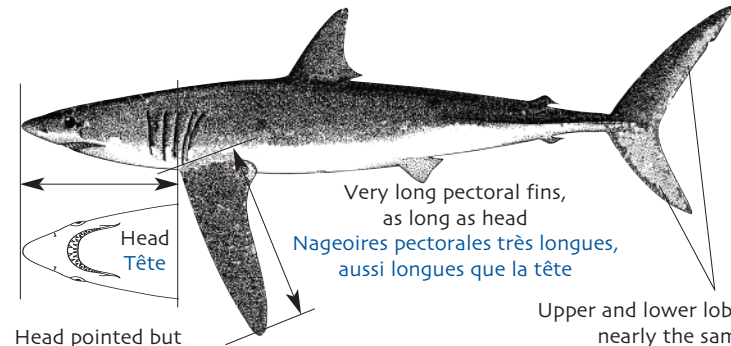

LMA

English: Longfin mako  
French: Petite taupe  
Japanese: Bake-aozame  
Hawaiian: Mano  
Local:

Shape of upper teeth  
Forme des dents supérieures

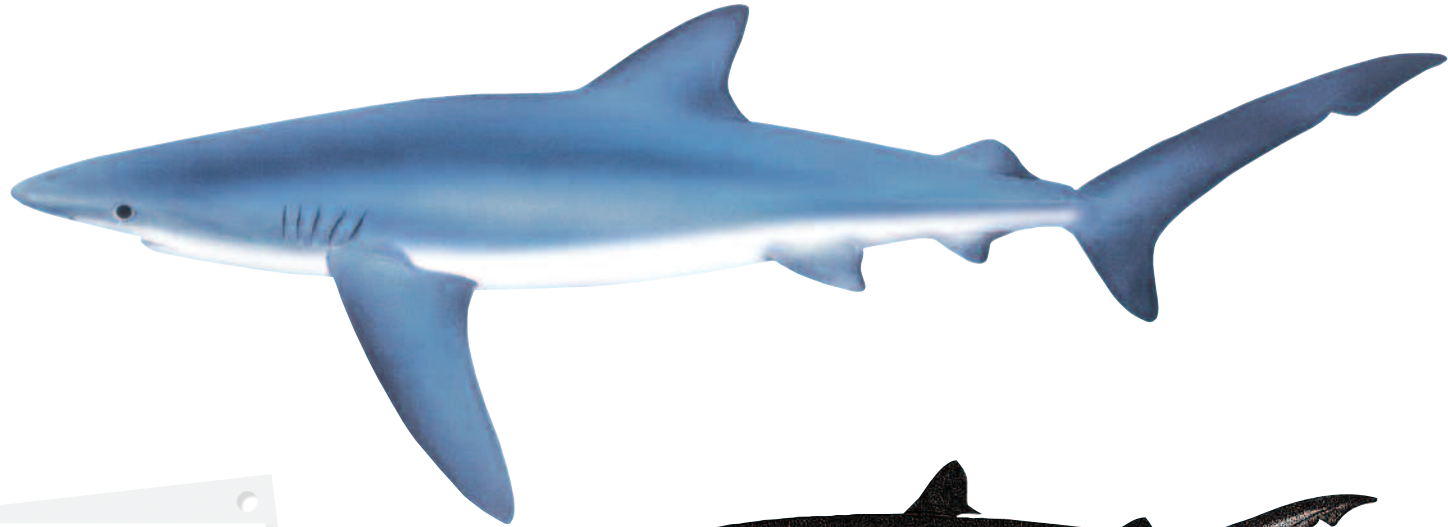

Head pointed but  
snout rounded  
Tête pointue mais  
museau arrondi

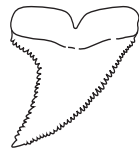

Upper and lower lobes of caudal fin  
nearly the same length  
Lobes supérieur et inférieur  
de la nageoire caudale à peu près  
d'égale longueur

# Prionace glauca

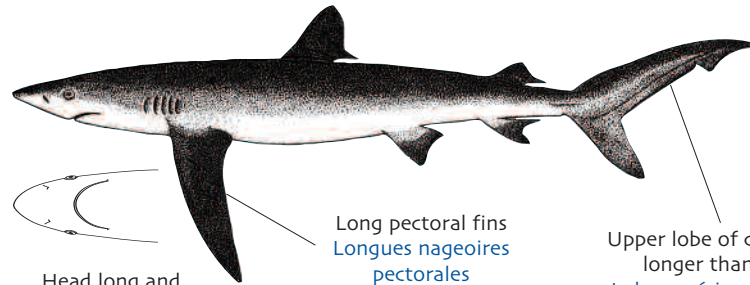

BSH

- English: Blue shark
- French: Peau bleue
- Japanese: Yoshikirizame, Mizubuka, Aota
- Hawaiian: Mano
- Local:

Shape of upper teeth  
Forme des dents supérieures

Head long and snout rounded  
Tête longue et museau arrondi

Long pectoral fins  
Longues nageoires pectorales

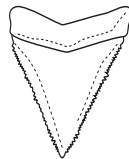

Upper lobe of caudal fin much longer than lower lobe  
Lobe supérieur de la nageoire caudale beaucoup plus long que le lobe inférieur

# *Carcharodon carcharias*

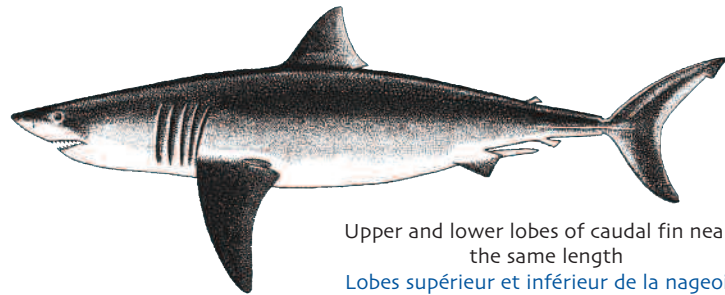

WSH

English: Great white shark  
French: Grand requin blanc  
Japanese: Hohojirozame,  
Hohojiro, Iragi,  
Maira  
Hawaiian: Niuhi  
Local:

Shape of upper teeth  
Forme des dents supérieures

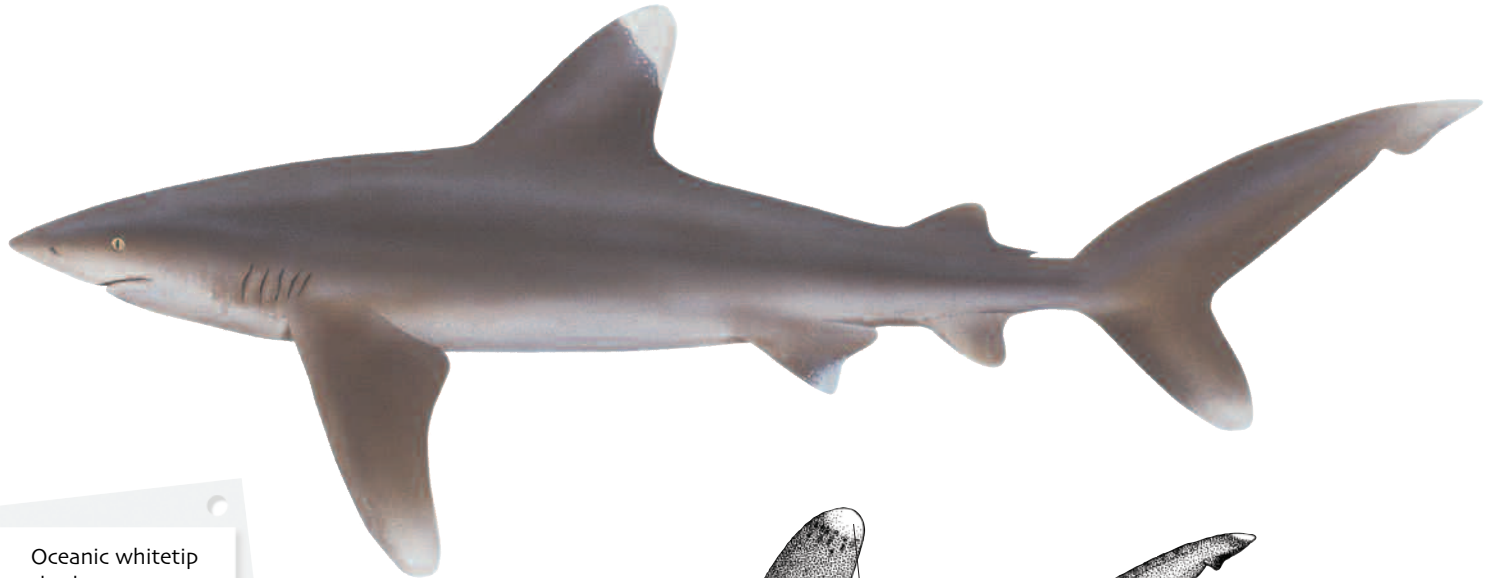

Upper and lower lobes of caudal fin nearly  
the same length  
Lobes supérieur et inférieur de la nageoire  
caudale à peu près de la même longueur

Maximum length: 7 m  
Taille maximum : 7 m

# Carcharhinus longimanus

OCS

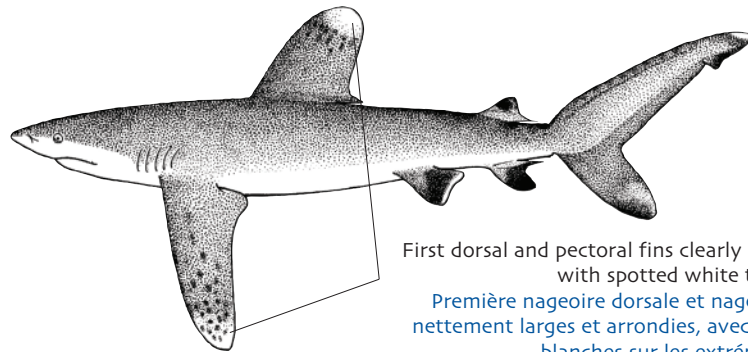

English: Oceanic whitetip shark

French: Requin océanique

Japanese: Yogore

Hawaiian: Mano nigano

Local:

First dorsal and pectoral fins clearly broad and rounded, with spotted white tips

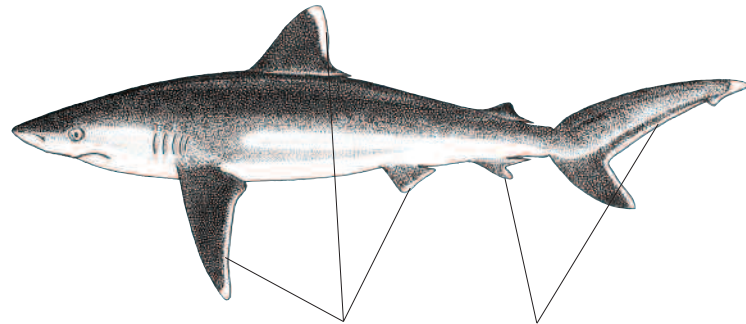

Première nageoire dorsale et nageoires pectorales nettement larges et arrondies, avec des petites taches blanches sur les extrémités

# *Carcharhinus albimarginatus*

ALS

English: Silvertip shark  
French: Requin à pointes blanches  
Japanese: Tsumajiro  
Local:

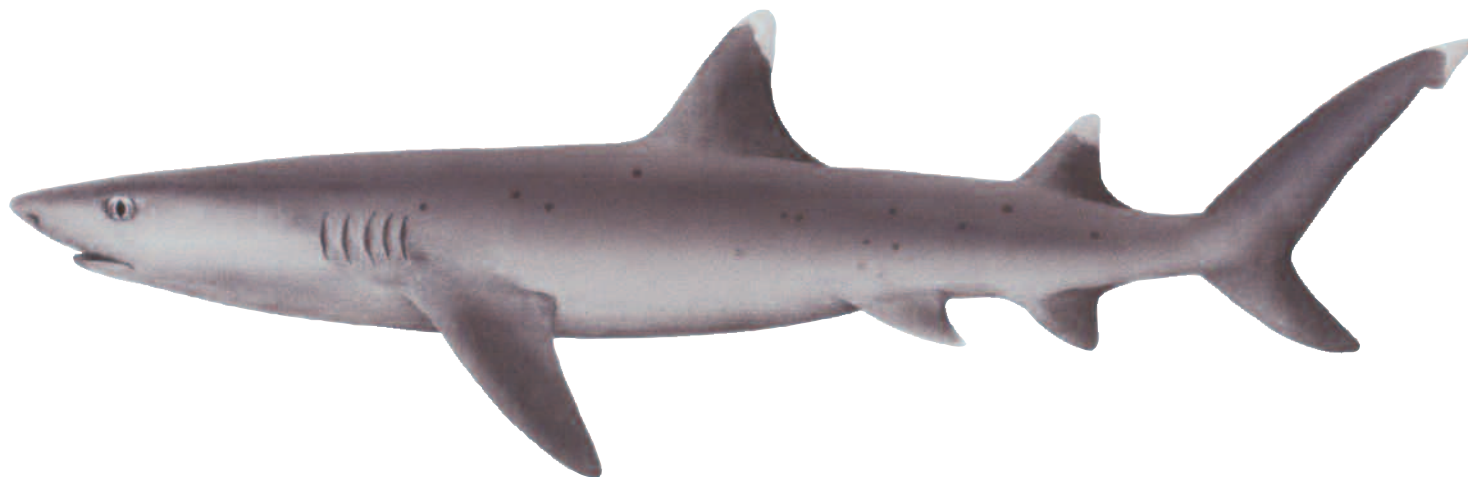

Back edge (not just tips) of all fins white  
Bords postérieurs (pas seulement les extrémités) de toutes les nageoires blancs

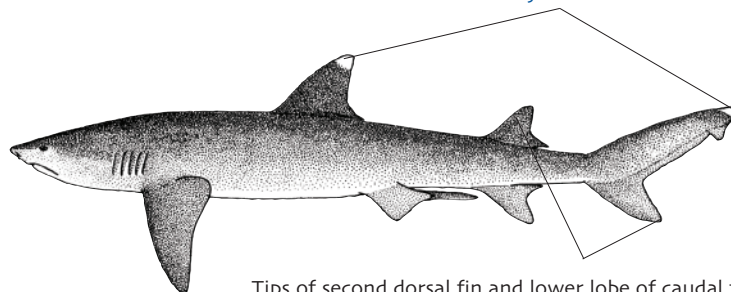

# *Triaenodon obesus*

TRB

Tips of first dorsal fin and upper lobe of caudal fin always white  
Pointes de la première nageoire dorsale et du lobe supérieur de la nageoire caudale toujours blanches

Tips of second dorsal fin and lower lobe of caudal fin sometimes white  
Pointes de la deuxième nageoire dorsale et du lobe inférieur de la nageoire caudale parfois blanches

- English: Whitetip reef shark
- French: Requin corail
- Japanese: Nemuribuka
- Hawaiian: Mano lalakea
- Local:

# *Alopias pelagicus*

PTH

English: Pelagic thresher  
French: Renard pélagique  
Japanese: Nitari  
Hawaiian: Mano hi'uka,  
Thresher shark  
Local:

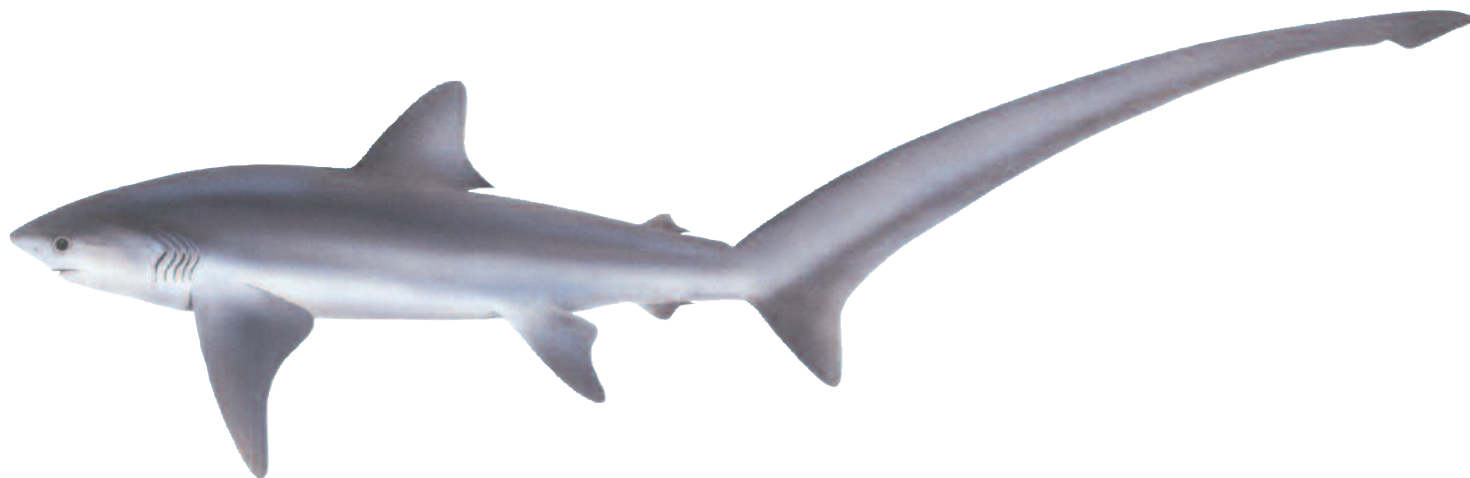

No groove on head  
Pas de sillon sur la tête

No groove at back of mouth  
Pas de sillon à l'arrière  
de la bouche

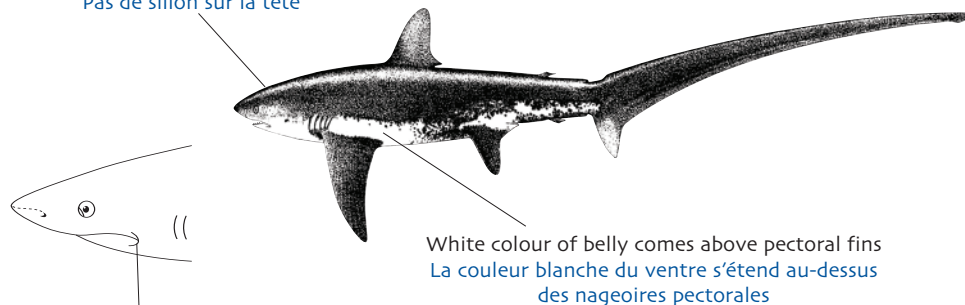

Light belly colour only below pectoral fins  
Ventre de couleur claire uniquement sous les nageoires pectorales

# *Alopias vulpinus*

ALV

No groove on head  
Pas de sillon sur la tête

White colour of belly comes above pectoral fins  
La couleur blanche du ventre s'étend au-dessus  
des nageoires pectorales

Groove at back of mouth  
Sillon à l'arrière de la bouche

English: Common thresher,  
Thintail thresher

French: Renard

Japanese: Ma-onaga,  
Onaga zame

Hawaiian: Thresher shark

Local:

# *Alopias superciliosus*

BTH

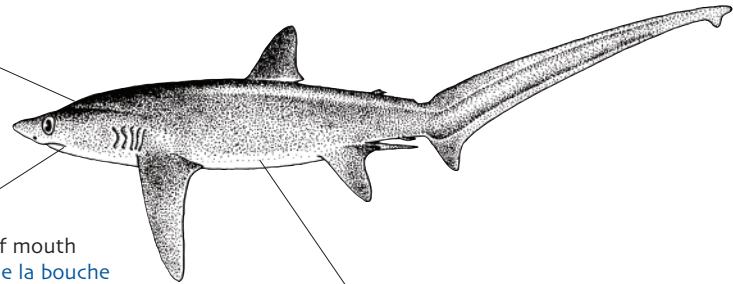

English: Bigeye thresher  
French: Renard à gros yeux  
Japanese: Hachiware  
Hawaiian: Mano hi'uka,  
Thresher shark  
Local:

Groove on head  
Sillon sur la tête

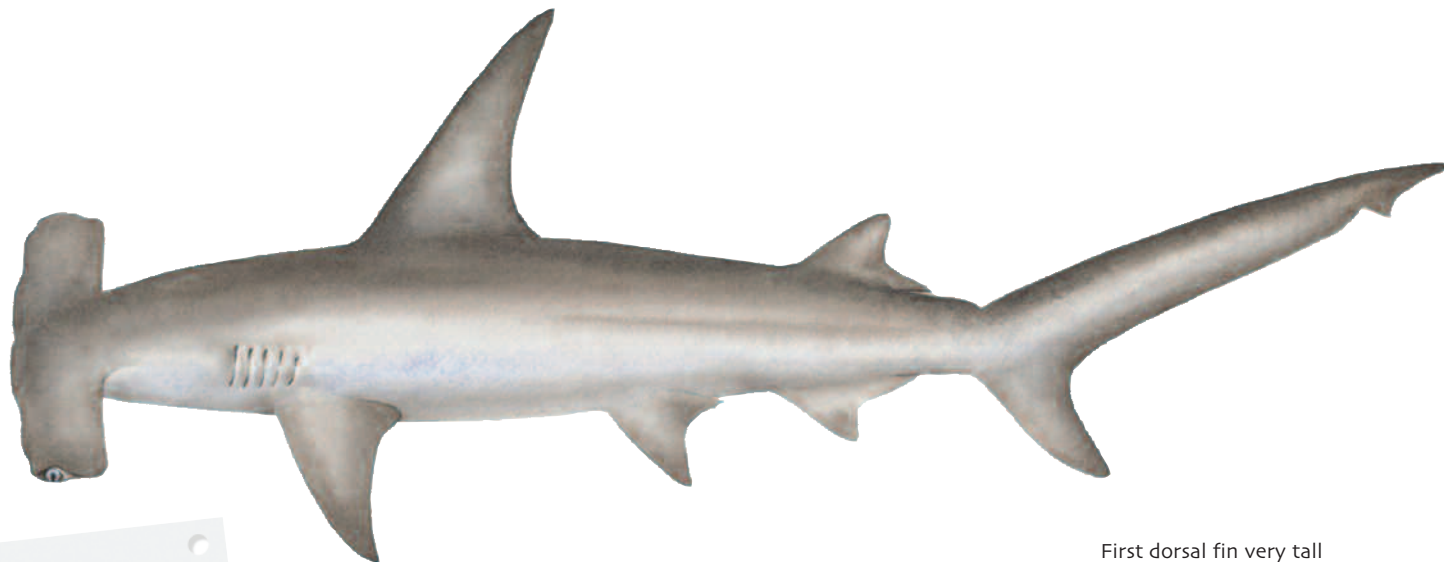

No groove at back of mouth  
Pas de sillon à l'arrière de la bouche

Light belly colour only below pectoral fins  
Ventre de couleur claire uniquement sous les nageoires pectorales

# *Sphyrna mokarran*

SPK

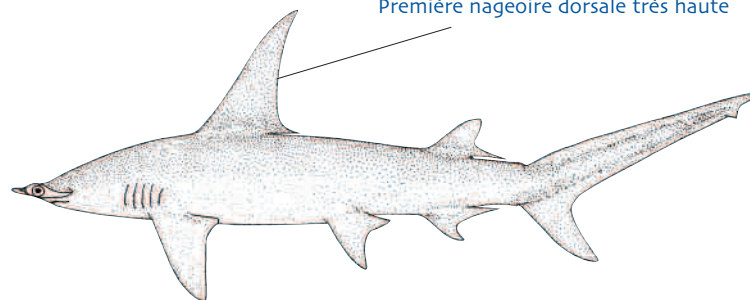

English: Great hammerhead  
French: Grand requin marteau  
Japanese: Hirashumokuzame  
Local:

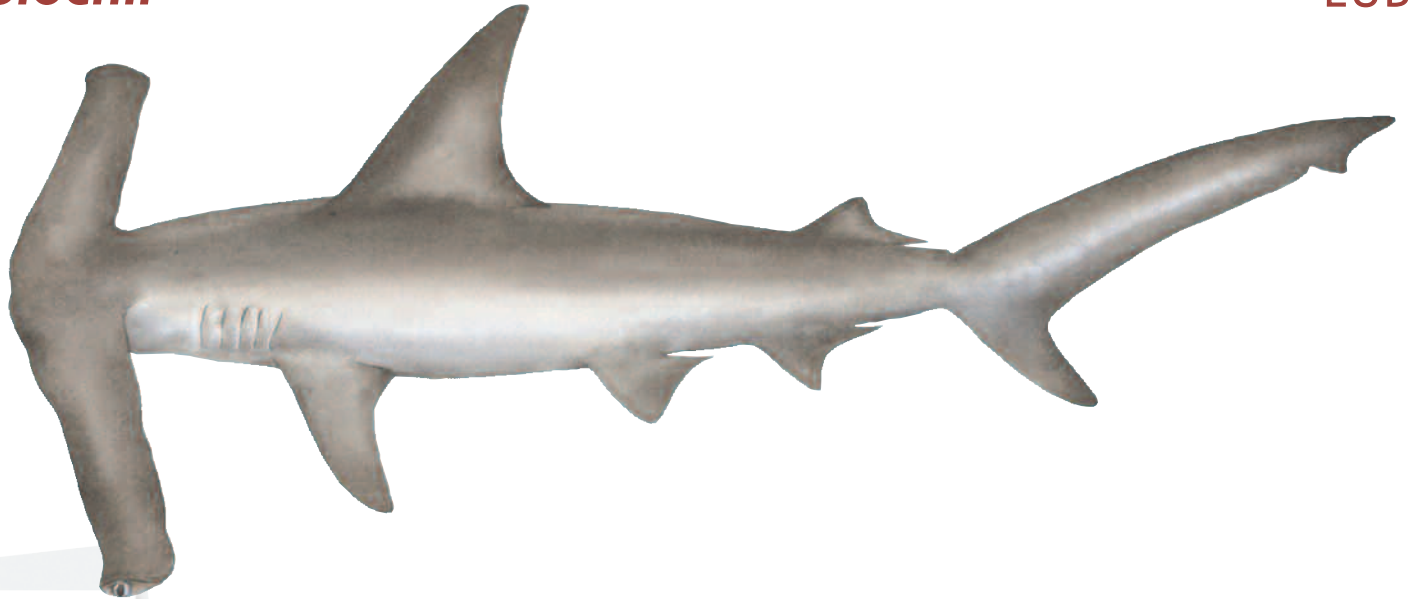

Front of head nearly straight with slight dent in middle  
Avant de la tête presque rectiligne, légèrement incurvé au milieu

First dorsal fin very tall  
Première nageoire dorsale très haute

# *Eusphyra blochii*

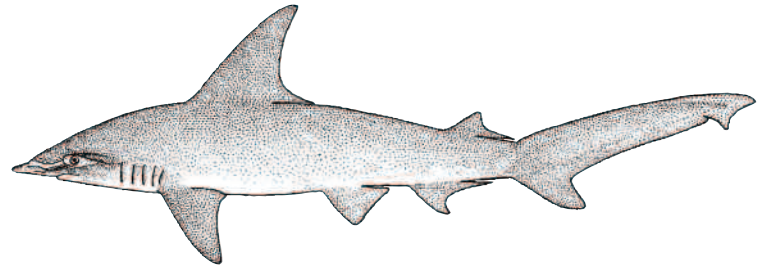

EUB

English: Winghead shark  
French: Requin marteau planeur  
Japanese: Indoshumokuzame  
Local:

Head width nearly half of body length  
*Largeur de la tête égale à près de la moitié de la longueur du corps*

# *Sphyrna lewini*

SPL

English: Scalloped  
hammerhead

French: Requin marteau  
halicorne

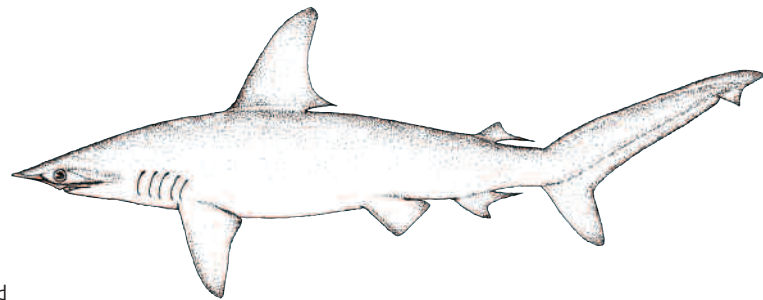

Japanese: Akashumokuzame

Hawaiian: Mano kihikihi

Local:

Front of head curved with middle  
dent and a distinct lobe at each end  
Avant de la tête courbe, incurvé  
au milieu, et lobe distinct  
à chaque extrémité

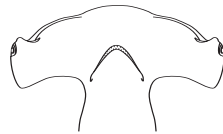

# *Sphyrna zygaena*

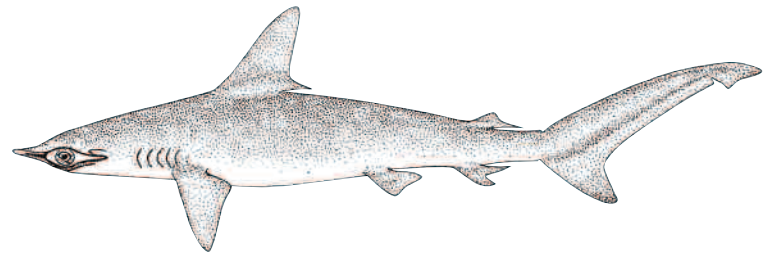

SPZ

English: Smooth hammerhead  
French: Requin marteau commun  
Japanese: Shiroshumokuzame  
Hawaiian: Mano kihikihi  
Local:

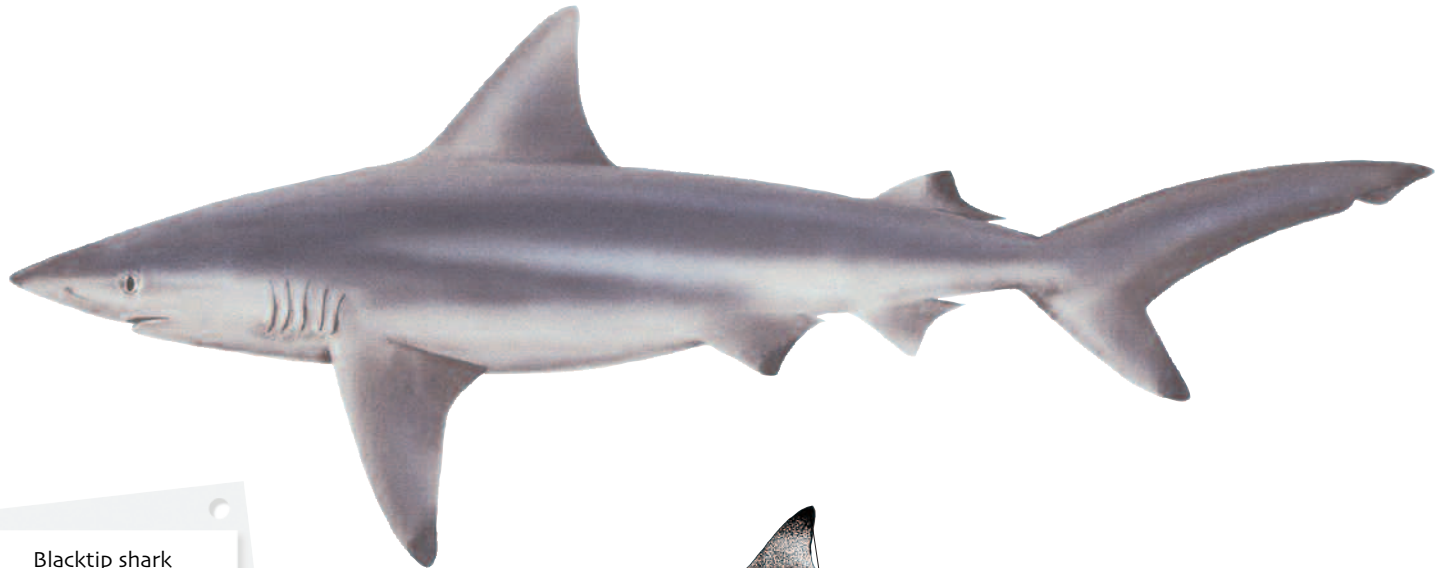

Front of head curved  
with no middle dent  
Avant de la tête courbe,  
non incurvé au milieu

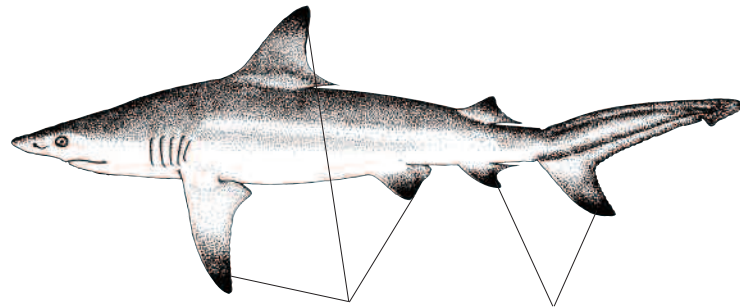

# *Carcharhinus limbatus*

CCL

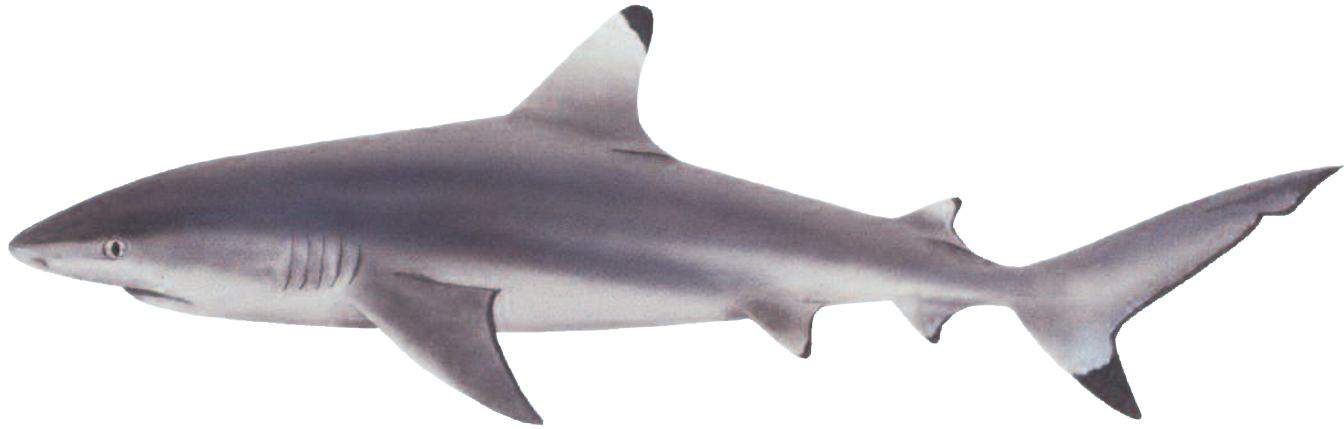

English: Blacktip shark  
French: Requin bordé  
Japanese: Kamasutogarizame  
Hawaiian: Blackfin shark  
Local:

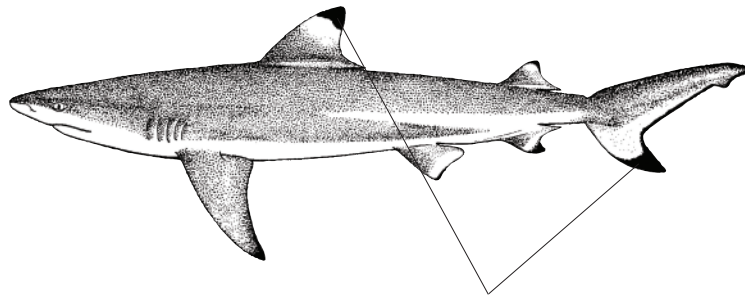

Dark-to-black tips on most fins  
Pointes foncées à noires sur presque toutes les nageoires

# *Carcharhinus melanopterus*

BLR

English: Blacktip reef shark  
French: Requin à pointes noires  
Japanese: Tsumaguro  
Hawaiian: Mano pa'ele  
Local:

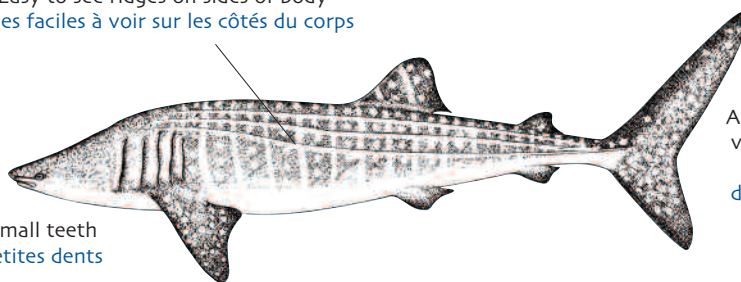

Distinct black markings on tips of first dorsal fin and lower lobe of caudal fin  
Marques noires distinctes sur les pointes de la première nageoire dorsale  
et du lobe inférieur de la nageoire caudale

# Rhincodon typus

RHN

Easy to see ridges on sides of body  
Rides faciles à voir sur les côtés du corps

Very small teeth  
Très petites dents

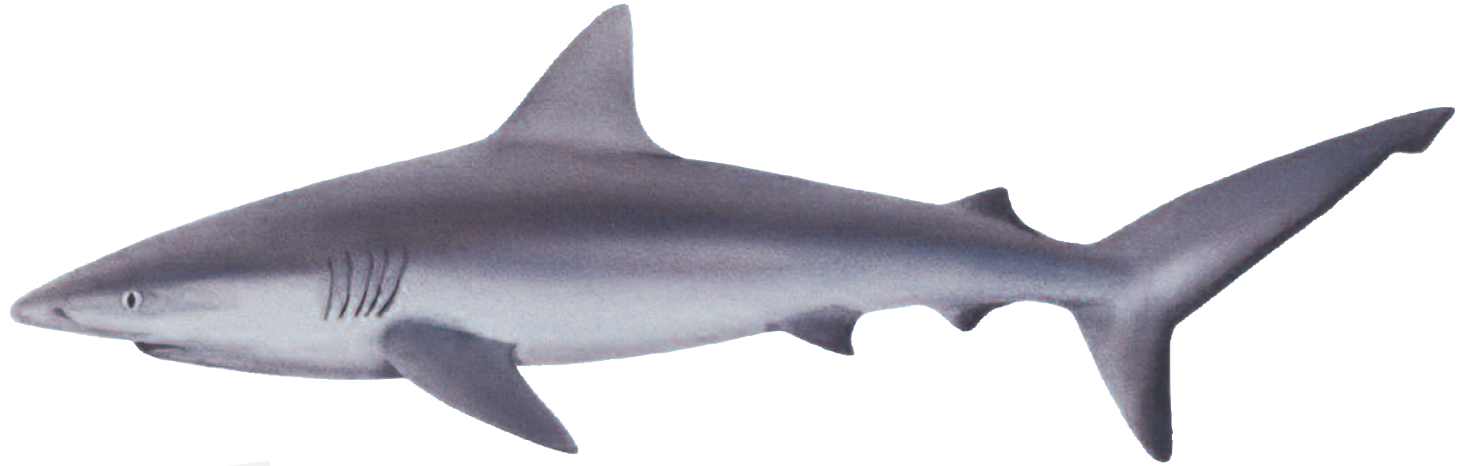

A very clear pattern of light spots and vertical stripes on a dark background  
Dessin très net de taches claires et de bandes verticales sur fond sombre

Maximum length: 18 m  
Taille maximum : 18 m

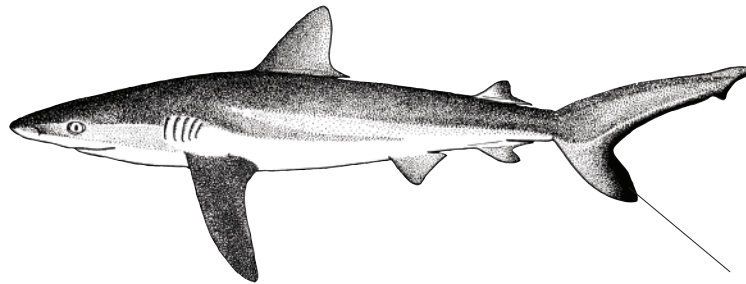

English: Whale shark  
French: Requin baleine  
Japanese: Jinbeizame  
Local:

# *Carcharhinus amblyrhynchos*

AML

English: Grey reef shark  
French: Requin dagsit,  
Requin gris de récif  
Japanese: Oguromejirozame,  
Hairomejirozame  
Hawaiian: Mano lalakea  
Local:

Broad black band at back edge of caudal fin  
Large bande noire sur le bord postérieur de la nageoire caudale

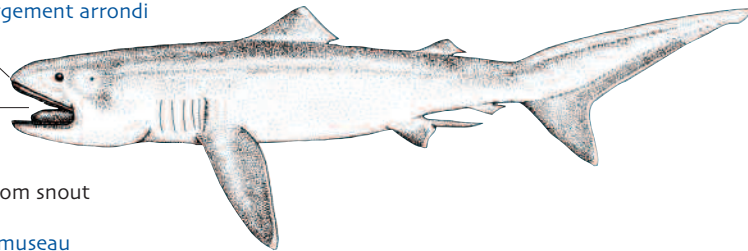

# Megachasma pelagios

LMP

English: Megamouth shark  
French: Requin grande gueule  
Japanese: Megamausu  
Local:

Short but broadly rounded snout  
Museau court mais largement arrondi

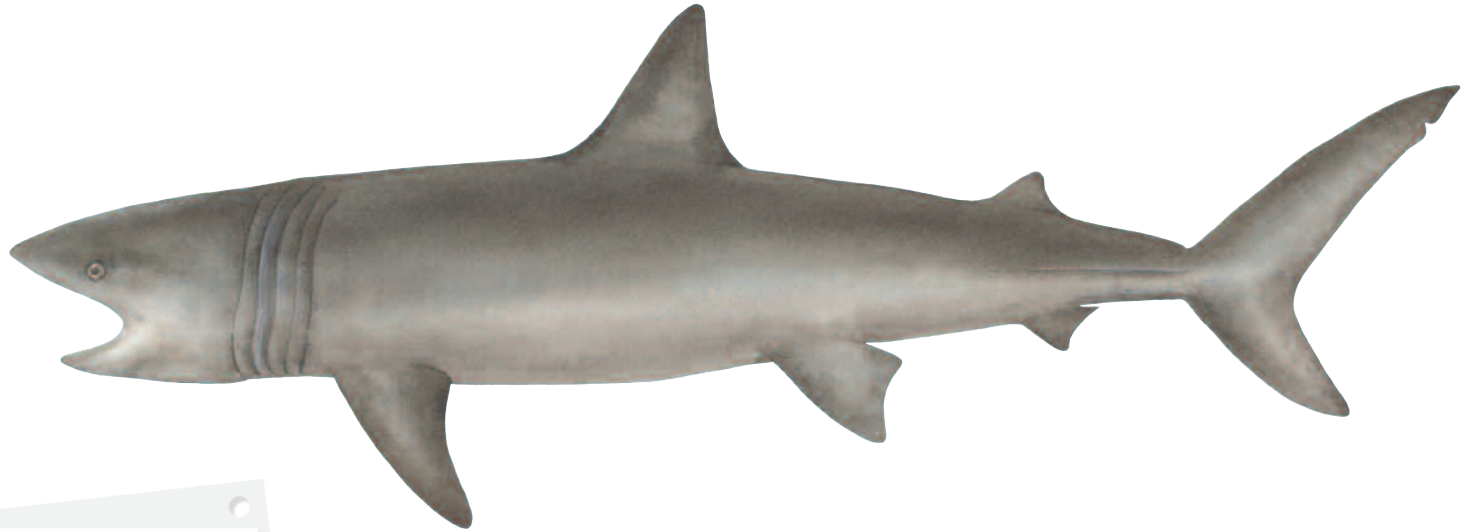

Huge mouth that extends from snout  
to behind the eyes  
Énorme bouche allant du museau  
jusqu'en arrière des yeux

Maximum length: 6 m  
Taille maximum : 6 m

# Cetorhinus maximus

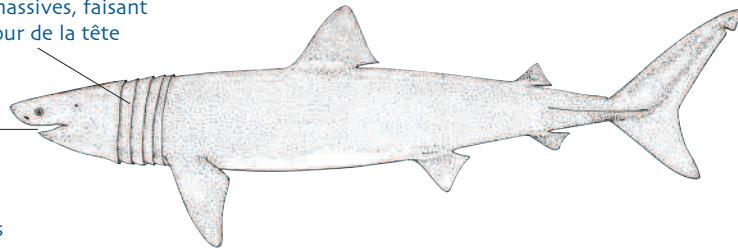

BSK

English: Basking shark  
French: Pèlerin  
Japanese: Ubazame  
Local:

Massive gill slits extending almost  
all the way around head  
Fentes branchiales massives, faisant  
presque tout le tour de la tête

Very small teeth  
Très petites dents

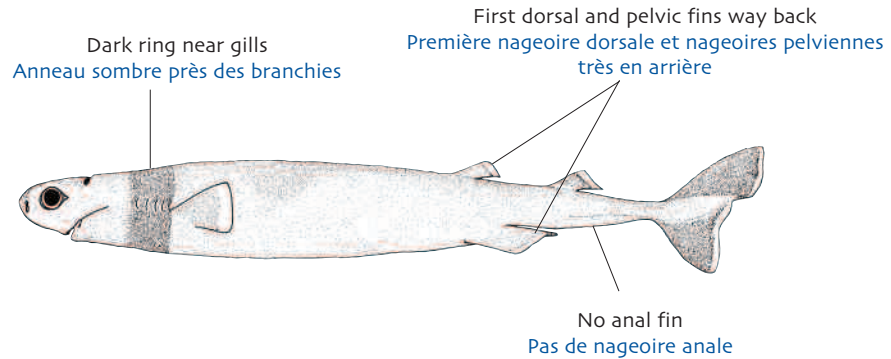

Maximum length: 12 m  
Taille maximum : 12 m

# *Isistius brasiliensis*

ISB

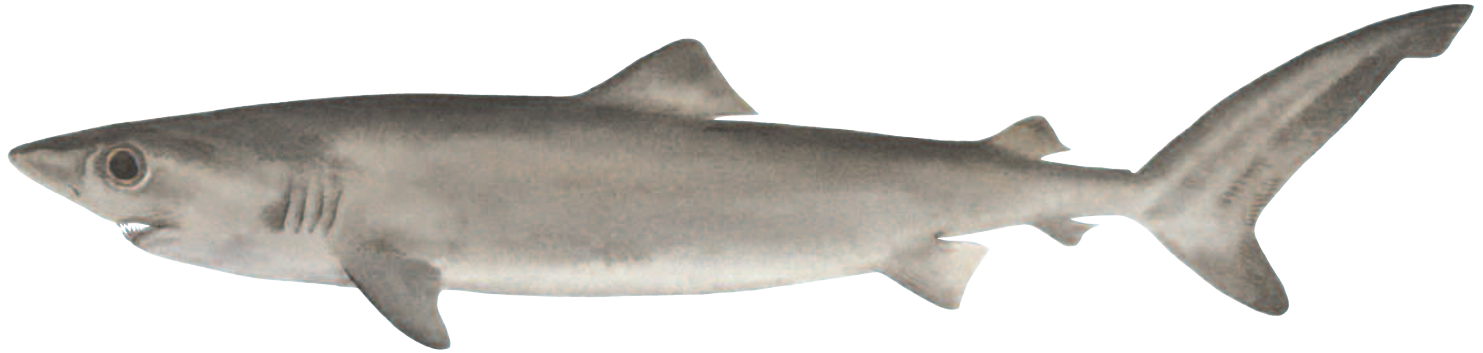

English: Cookie cutter shark  
French: Squalelet féroce  
Japanese: Darumazame  
Hawaiian: Cookie cutter shark  
Local:

Maximum length: 50 cm  
Taille maximum : 50 cm

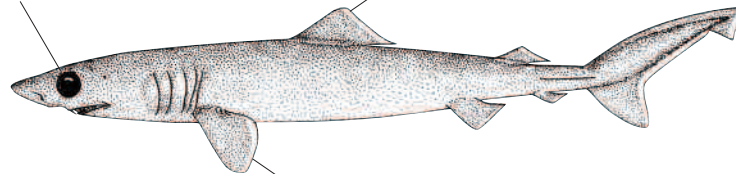

# *Pseudocarcharias kamoharai*

PSK

Low first dorsal fin  
Première nageoire dorsale basse

Large eyes  
Grands yeux

Small pectoral fin  
Petite nageoire pectorale

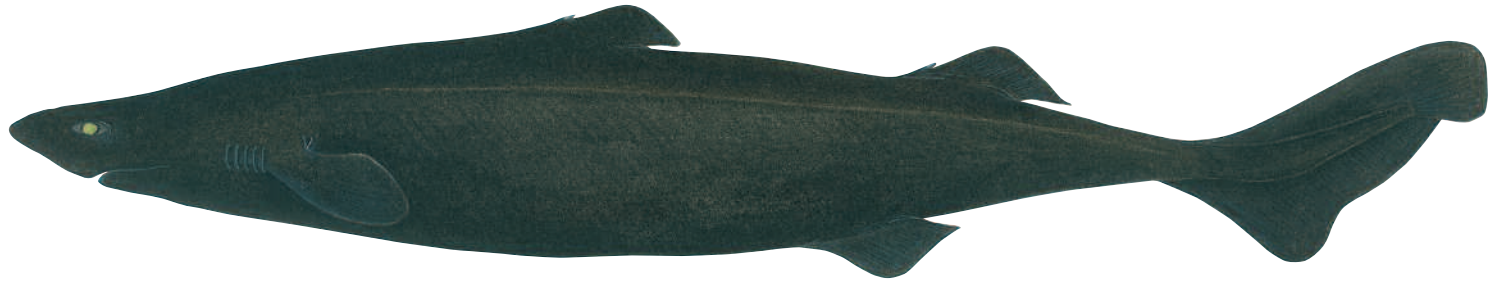

Maximum length: 110 cm  
Taille maximum : 110 cm

English: Crocodile shark  
French: Requin crocodile  
Japanese: Mizuwani,  
Shikkui, Tobituki  
Local:

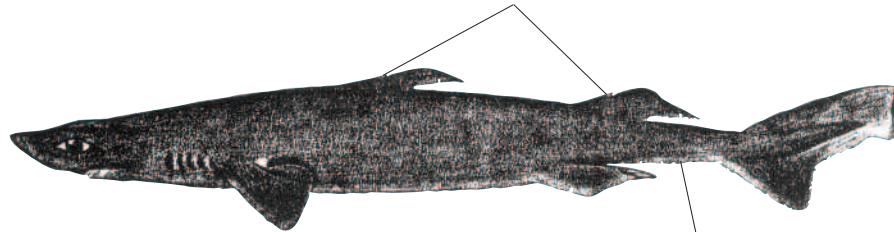

# Scymnodon squamulosus

SSQ

Small spines on both dorsal fins  
Petites épines sur les deux nageoires dorsales

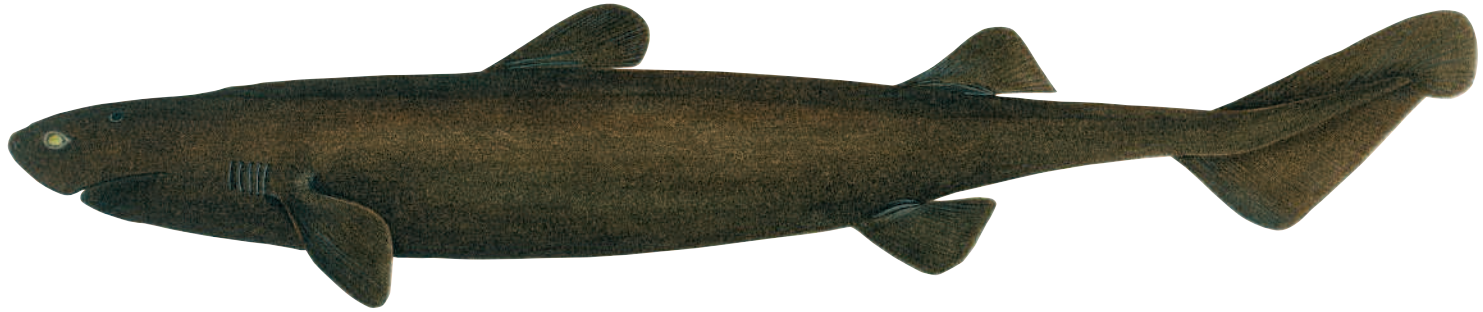

No anal fin  
Pas de nageoire anale

Maximum length: 85 cm  
Taille maximum : 85 cm

English: Velvet dogfish  
French: Squale grogneur velouté  
Japanese: Birodozame  
Local:

# Dalatias licha

SCK

English: Kitefin shark,  
Seal shark

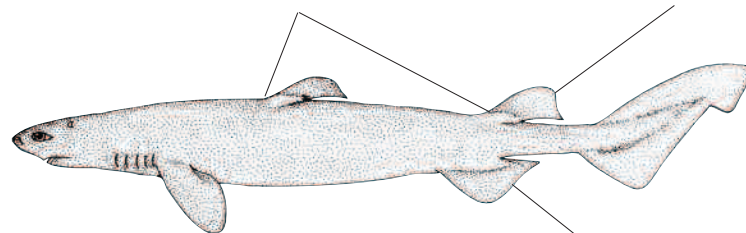

French: Squale liche

Japanese: Yoroizame

Local:

No spine on dorsal fins  
Pas d'épines sur les nageoires dorsales

Second dorsal fin same size or larger than first dorsal fin  
Deuxième nageoire dorsale de même taille  
ou plus grande que la première

Large pelvic fin and no anal fin  
Grande nageoire pelvienne ; pas de nageoire anale

Maximum length: 160 cm  
Taille maximum : 160 cm
