

## Information Paper 8

### Session 6B: Gender and Social Inclusion.

<b>Time allocated</b>	90 mins
<b>Session objectives</b>	<ol style="list-style-type: none"> <li>1. To Identify what are common exclusive practises in CBFM and how this is addressed.</li> <li>2. To discuss and find potential solutions of how GESI are taken up by communities without external support.</li> </ol>

#### Summary/Short description:

The CBFM Framework<sup>1</sup> includes consideration on gender and social inclusion (GESI) using a people centred approach (PCA).

A session on GESI was presented during the Cbfd3 in November 2023 whereby lessons, challenges and solutions regarding GESI were presented by Community Representatives and other Resource People with expertise on gender and youth related matters. The issues raised detailed that GESI remains a field that needs to be unpacked further to better understand what GESI entails and to identify areas where a lack of GESI may impact different segments of a community.

This session aims to understand who is impacted by exclusive practices and what are exclusive practices.

In a group exercise participants will be asked to detail:

- who they consider to be a socially excluded group in their community and wider societal context;
- any solutions and good practices on how exclusive practices can be mitigated or minimised.

The outcomes from this session will improve the understanding of a PCA, how this has been taken up and prompt discussions on possible solutions to enhance inclusivity in the context of scaling up CBFM.
