Country programme plan for Papua New Guinea

(June 2016 update)

The following table lists key work areas that SPC is undertaking in 2016 in cooperation with Papua New Guinea. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Papua New Guinea and achieve its national development priorities. SPC's key regional work is presented in the Pacific Community Results Report.

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
National Level Work			
<i>Pacific Communities are Empowered and Resilient</i>			
Disaster Risk Reduction and Disaster Mitigation			
Strengthened disaster risk management plans and practices	Vulnerability and risks managed	Completed	Training manual on the application of risk analysis to urban planning decision making developed and training course delivered - Training reports and manuals produced
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of coastal fisheries	Enhanced capacity of coastal communities to respond effectively to climate change and improved assessment of climate change impacts on marine environments	On Track	Database needs assessments undertaken and follow-up training provided
<i>Pacific Island people reach their potential and lead long and healthy lives</i>			
Education and Quality Assessment Programme			
Improved quality of education	Raising of students achievements in literacy and numeracy	On Track	Technical assistance provided in the assessment and monitoring of literacy, numeracy, and life skills in the Pacific
	Strengthening national accreditation and assessment systems	On Track	Pacific Register of Qualifications quality assurance reports on agencies compiled
		On Track	Skills register completed and populated
<i>The Pacific region and its people benefit from inclusive and sustainable economic growth</i>			
Energy Services			
Sustainable economic development through accessible, affordable, efficient, secure and safe energy services	Strong leadership in the Pacific's energy sector, with good governance, effective multi-sectoral coordination and strategic partnerships, including monitoring and evaluation	On Track	Developed course and unit descriptors for climate change adaptation and sustainable energy, At least 10 trainers trained in train-the-trainer course
		On Track	Climate change adaptation and sustainable energy training networks strengthened
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of oceanic fisheries	Enhanced national oceanic fishery data management to meet national requirements and international obligations	Ongoing	Fisheries observer data quality and coverage audit completed - An initial audit and feedback of the data was provided
	National tuna oceanic fisheries policy and decision-making are informed by the best science-based stock assessments and advice	On Track	Provided scientific analyses to inform national tuna longline fishery management plans

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
Land Resources			
Enhanced sustainable land, agriculture and forestry resource management	Increased capacity of sustainable land and forest management	Completed	Co-facilitated the Asia Pacific Forestry Week (APFW) - Supported PNG participation at the APFW
Increased contribution from agriculture and forestry sectors to inclusive broad-based economic growth	Capacity support to implement REDD+ activities developed and strengthened	On Track	Supported the implementation of Phase II of the REDD+ project on forest conservation
	Viable agribusinesses have a development impact created or strengthened	Completed	Production and export potential identified and assessed for new and existing production areas and producer groups and private entrepreneurs
Statistics for Development			
Pacific national and regional statistics are accessible and are being utilised	PICTs have the technical capacity to manage and implement all core statistical collections, including key administrative databases, as required by national development plans, including national strategies for the development of statistics	On Track	Technical assistance provided to support completion of national civil registration and vital statistics assessments and improvement plans
