Title:	Draft FAME business plan 2022–2027
Author(s):	FAME Secretariat

Summary/short description/key points:

This paper introduces the draft business plan 2022-2027 for the Pacific Community (SPC) Fisheries, Aquaculture and Marine Ecosystems (FAME) division. FAME has been providing scientific and technical expertise to support fisheries management and sustainable development in the Pacific for over 60 years. Our goal through this business plan is that *the fisheries and aquaculture resources of the Pacific region are resilient, and managed sustainably for economic growth, food security, and cultural and environmental conservation.*

The draft business plan is nested under the SPC's Strategic Plan 2022-2031 and guided by member priorities. Through this business plan, FAME will implement and contribute to all the Key Focus Areas of the SPC strategic plan.

Inspired by *Te Wa* - that is inherently linked with our Pacific identity as navigators, discovers and fishers, together we embark on a voyage of discovery and learning, integrating our Pacific knowledge, and empowered by trusting relationships and enduring partnerships.

**Recommendations:**

Members are invited to:

- review the draft FAME business plan 2022–2027,
- make suggestions where necessary, and
- consider and endorse the draft business plan 2022–2027 for SPC to commence implementation.
