

New Caledonia Results Summary 2018

Each year, as part of SPC's organisation-wide annual results reporting process, SPC collates the results achieved in each of its member countries and territories, and in the region. In 2018, 588 results were reported across the organisation towards the achievement of our objectives. Of these results, two country-specific results were reported for New Caledonia, with an additional six multi-country results benefitting New Caledonia.

*Multi-country results including more than 10 Pacific Island countries and territories are included in the Regional Results Summary 2018

Results by SPC's development objectives

Ways of working

In 2018, we looked more closely at how SPC contributes to the achievement of results in its member countries and territories.

SPC's staff supported New Caledonia in achieving its results in three ways:

SPC's contribution to the achievement of the Sustainable Development Goals

In 2018, we mapped each result to one or several SDGs to show how SPC contributes to their achievement in each of our member countries and territories. In New Caledonia, results contributed to six of the 17 SDGs. The highest number of results contributed to the achievement of SDG 14: Life below water. One result may contribute to multiple SDGs.

2018 Results for New Caledonia

SPC Development Objective and result area	Result	Sustainable Development Goal*	PICT
 SDG 3: Good health and well-being			
<p>DO7: Improve multi-sectoral responses to non-communicable diseases and food security</p>	<p>15 youth participated in training on 'non communicable diseases (NCDs) and youth' as part of the Wake Up! project; developing strategies for awareness raised through social media and art</p>		<p>Fiji, Cook Islands, Tonga, New Caledonia, French Polynesia, Vanuatu and Wallis and Futuna</p>
