

Pocket summary

Data description

Title Pocket summary (yearly snapshot of latest available values)

Description The pocket summary presents a consolidated view of a set of key figures for Pacific island countries and territories. This PDH.Stat version of the pocket summary may differ from the printed version as it provides latest known values per year for each territory.

Data processing

For each pocket summary year, the latest figure available for each indicator and for each territory is consolidated in a snapshot.

Time mentioned in the dataset is the time of the pocket summary snapshot, if the reference period of a data point is different this will be mentioned in the footnotes.

In the data table, TIME_PERIOD refers to the time of the pocket summary snapshot, DATA_YEAR to the reference period of the data point.

Temporal coverage

First period 2005

Last period 2020

Data scheduling

Frequency Yearly

Timeliness Current year is added to the pocket summary dataset at mid-year.

Data revision

Pocket summary data is revised each time one of its source is revised. This results in differences between the printed version of the pocket summary and the online version published on PDH.stat.
